Product Description

Introduction of 99% Medical Grade Nootropics Anxiolytic Peptides GHPR2 5mg

GHRP2 not only to promote the release of growth, but also has other biological effects, such as mediation feeding and energy metabolism, cardiovascular function, control gastrointestinal function and inhibition of tumor cell proliferation and so on . Recent studies have shown that serum GHRP2 concentration was positively correlated with BMD, so GHRP2 can be involved in the metabolism of bone tissue, affecting the function of osteoblasts
