

Pharmaceutical Grade TB 500 Peptide 99% Promoting Healing

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB 500
- Minimum Order Quantity: 1 box
- Price: Negotiable
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Pharmaceutical Grade TB 500 Bio Peptide Growth Hormone For Promoting Healing
- Appearance: White powder
- CAS NO: 885340-08-9
- Purity: 99%
- MW: 4963.50
- MF: C212H350N56O78S
- Specification: 2mg/vial, 10vials/box
- Storage: Cool Dried Storage
- Highlight: **Pharmaceutical Grade TB 500 Peptide, 99% TB 500 Peptide, Promoting Healing Bio Peptide HGH**

Product Description

What is Pharmaceutical Grade TB 500 Bio Peptide Growth Hormone For Promoting Healing?

Product Name	Pharmaceutical Grade TB 500 Bio Peptide Growth Hormone For Promoting Healing
Cas No.	885340-08-9
Assay	99%
Appearance	White powder
MF	C212H350N56O78S
Shelf Life	2 years
Condition	Cool Dried Storage

Brief Introduction:

TB 500 thymosin β -4 is a peptide fragment hormone used primarily to treat various types of muscle injury or pain caused by inflammation. There is very little official data on this product; However, it has always been the hormone used in horse racing. TB 500, although synthetic, acts (loosely) as a synthetic form of thymosin β -4 (TB-4). Often confused with TB-4, TB 500 is a naturally occurring thymosin β -4 receptor, a short peptide fragment or fragment of protein (TB-4).

The thymus and various local cells in the body produce thymosin β -4 (TB-4), which is present in extremely high concentrations in the wound cytoplasm. TB 500 has the healing promoting part of the TB-4 sequence (reference to the whole end of the growth hormone fragment truncated to achieve the effect of extraction), and the main purpose of TB-500 is to promote the upregulative ability of cells in vivo. Upregulation increases cellular sensitivity to action, especially in proteins such as actin. This action helps regulate inflammation in the injured area of the body and provides new access to blood vessels. The TB-500 has a very low molecular weight, giving it high levels of mobility in the body. In short, the TB-500 can be applied to the whole body, reaching almost all locations. The TB-500 does not have to be applied to the injured area. The effects of the TB-500 are applied to the whole body regardless of the injection site.

Product Image:

Function:

1. Promote healing.

Especially for the healing of body wounds or joint injuries, TB-500 can be used to treat muscle tears or strains, tendon inflammation and even skin injuries, where the peptide does not lead to immediate healing of the injured area. If the muscle is torn, it is torn, but in many cases use of the TB-500 speeds up the healing process.

2. Promotes hair growth.

In particular, the use of TB-500 may reverse hair loss caused by male hormone alopecia.

Package and Shipping of Pharmaceutical Grade TB 500 Bio Peptide Growth Hormone For Promoting Healing

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Pharmaceutical Grade TB 500 Bio Peptide Growth Hormone For Promoting Healing

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
