

Freeze Dried Bodybuilding Peptide DSIP Delta Sleep Inducing Peptide 5mg

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-DSIP(Delta Sleep)
- Minimum Order Quantity: 1BOX
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Freeze Dried Bodybuilding Peptide DSIP
Delta Sleep Inducing Peptide 5mg
- CAS: 62568-57-4
- Specification: 5mg/vial, 10vials/box
- Purity: 99%
- Molecular Weight: 848.81
- Molecular Formula: C35H48N10O15
- Appearance: White powder
- MOQ: 1BOX
- Highlight: Freeze Dried Body Building Peptides,
COA Body Building Peptides,
5mg/vial DSIP Delta Sleep Inducing Peptide

Product Description

What is Freeze Dried Bodybuilding Peptide DSIP Delta Sleep Inducing Peptide 5mg?

Basic Information Form:

Product Name	Freeze Dried Bodybuilding Peptide DSIP Delta Sleep Inducing Peptide 5mg
CAS NO.	62568-57-4
MF	C35H48N10O15
MW	848.81
EINECS NO.	unavailable
Purity	99%
Appearance	White freeze dried powder
Place of origin	China
MOQ	1box

Brief Introduction:

DSIP (Delta Sleep-inducing Peptide) is a neuropeptide found in the hypothalamus, pituitary, and adrenal glands. Its isolation has allowed for extensive research which has found several possible primary and peripheral roles of this peptide.

DSIP has been shown to induce sleep, it may have benefits as an analgesic in treatment of chronic pain, sometimes as an adjunct treatment.

DSIP has been shown to block ACTH release and decrease levels of ACTH, stimulate LH release, and act as an inhibitor of the secretion of somatostatin. The source of production of DSIP is yet unknown; It may be produced in the central nervous system or in a peripheral organ.

Through the blood-brain barrier (BBB) more easily than most known neuropeptides. As mentioned, DSIP has shown positive results in inducing slow-wave EEG (sleep). It has been shown to help treat narcolepsy and restore disturbed sleep patterns to normal sleep rhythms.

Application:

Sleep is necessary to sustain the health of human body physiological processes, the sleep quality has produced important influence on people's life and health. So the study of sleep more and more get the attention of people.

DSIP is the first have to clarify chemical structure of sleep. It had discovered that some of the biological activity and have been applied to clinical DSIP. In DSIP synthesis, solution method, solid phase method, enzymatic method, etc.

Delta sleep-inducing peptide, abbreviated DSIP, is a neuropeptide that when infused into the mesodiencephalic ventricle of recipient rabbits induces spindle and delta EEG activity and reduced motor activities. Many roles for DSIP have been suggested following research carried out using peptide analogues with a greater molecular stability and through measuring DSIP-like immunological (DSIP-LI) response by injecting DSIP antiserum and antibodies.

Package and Shipping of Freeze Dried Bodybuilding Peptide DSIP Delta Sleep Inducing Peptide 5mg

Package: 5mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Freeze Dried Bodybuilding Peptide DSIP Delta Sleep Inducing Peptide 5mg

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
