

HPLC 99% Purity Peptides Melanotan 2 for Body Building 10mg

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan II
- Minimum Order Quantity: 1box
- Price: Negotiable
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 3000kg/Month

Product Specification

- Name: HPLC 99% Purity Peptides Melanotan 2 For Body Building 10mg
- CAS: 863094-23-9
- MW: 341.44600
- MF: C₁₅H₁₉NO₄S₂
- MSDS: N/A
- Purity: 99%
- Outlook: White Powder
- MOQ: 1box
- Highlight: HPLC Melanotan 2 Peptides,
HPLC 99% Purity Melanotan 2 Peptides,
Body Building HPLC melanotan 2 10mg

Product Description

What is HPLC 99% Purity Peptides Melanotan 2 for Body Building 10mg?

Basic Information Form:

Product Name	HPLC 99% Purity Peptides Melanotan 2 for Body Building 10mg
CAS NO.	863094-23-9
MF	C ₁₅ H ₁₉ NO ₄ S ₂
EINECS NO.	unavailable
Purity	99%
Appearance	White
Place of origin	China
MOQ	1box
Storage	2-8°C

Brief Introduction:

Melanotan 2 (also referred to as Melanotan II) is a synthetically produced variant of a peptide hormone naturally produced in the body that stimulates melanogenesis, a process responsible for pigmentation of the skin.

Melanotan II, a drug originally developed as a skin tanning agent, but subsequently investigated as a potential treatment for sexual dysfunction.

As a result, Melanotan 2 has been shown in studies to exhibit appetite suppressant, lipolytic, and libido-enhancing effects in addition to promoting skin tanning.

Melanotan 2 has been shown in studies to exhibit appetite suppressant, lipolytic, and libido-enhancing effects in addition to promoting skin tanning.

Melanotan 2 has been researched extensively for use in protecting against the harmful effects of ultraviolet radiation from sunlight due to its melanogenesis-stimulating properties.

Application:

Melanotan II is typically provided in vials containing 10 mg of lyophilized (freeze-dried) powder. The vials are reconstituted with a convenient amount of bacteriostatic or sterile water, added to the vial by syringe. An example convenient amount of water is 2.5 mL. When this amount of water is used, the resulting solution contains 4 mg of MT-II per mL. If for example wishing to take a dose of 1 mg, a volume of 0.25 mL, or "25 IU" as marked on an insulin syringe, would be taken by injection. Injection may be subcutaneous, intramuscular, or intravenous, according to personal preference.

Injection typically is only once per day, but where a person is first trying the drug and judging tolerance, injection may be divided into two smaller amounts per day.

Typical dosage range is 0.5 to 2.0 mg/day, with a preferred range of 0.5 to 1.0 mg/day. However, it's best to first assess tolerance with lower dosing of 0.25 mg at a time.

After reconstitution, a Melanotan II vial should preferably be consumed entirely within 30 days. Prior to reconstitution, MT-II should be stored in the refrigerator or freezer, but it's acceptable for it to be shipped without refrigeration.

Use generally should be discontinued if MT-II, in the individual case, causes problems with increased growth, number, or darkness of moles.

Melanotan II's effect is fairly long-lasting. It can even be the case that it takes a year or more for a cycle's effect to largely disappear. Use of maintenance cycles can maintain effect indefinitely. As a rule of thumb, maintenance typically requires about 2 to 3 times as much MT-II per year as was needed for the first cycle. This can be taken either as a total of 2 to 3 cycles per year done in the same way as the initial cycle, or any more frequent dosing pattern providing this total amount of MT-II per year.

Package and Shipping of HPLC 99% Purity Peptides Melanotan 2 for Body Building 10mg

Package: 10mg/vial, 10vials/box

Shipping: Within 3-5 days after your payment

FAQ of HPLC 99% Purity Peptides Melanotan 2 for Body Building 10mg

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
