

## Cosmetic Grade 99% Powder Peptides Melanotan 2 CAS 863094-23-

9

Our Product Introduction

for more products please visit us on [peptide-powder.com](http://peptide-powder.com)

### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan II
- Minimum Order Quantity: 1 BOX
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,

### Product Specification

- Name: Cosmetic Grade Skin Tanning Mt 2  
Multifunctional Peptide Mt II Melanotan II
- Grade: Cosmetic Grade
- CAS: 863094-23-9
- Assay: 99%
- MF: C<sub>15</sub>H<sub>19</sub>NO<sub>4</sub>S<sub>2</sub>
- MW: 341.44600
- MSDS: N/A
- MOQ: 1 BOX
- Highlight: **Cosmetic Grade Melanotan 2 Peptides,  
Multifunctional Melanotan 2 Peptides,  
99% Tan Pure Melanotan 2**

## Product Description

### What is Cosmetic Grade Skin Tanning Mt 2 Multifunctional Peptide Mt II Melanotan II?

#### Brief Introduction:

Melanotan (MT)-II is a synthetic melanocortin receptor agonist. It's an injectable peptide hormone that promotes tanning. Melanotan 2 works by stimulating the release of the pigment melanin from the skin. Less UV exposure is necessary with Melanotan 2 compared to "normal tanning". And the tan that occurs with tanning injections is deeper and longer lasting than an individual's "normal tan". Melanotan works best (has the most noticeable effects) on people with fair skin tones.

Melanotan 2 has been shown in studies to exhibit appetite suppressant, lipolytic, and libido-enhancing effects in addition to promoting skin tanning.

Melanotan 2 has been researched extensively for use in protecting against the harmful effects of ultraviolet radiation from sunlight due to its melanogenesis-stimulating properties.

## Melanotan 2

**Application:**

Melanotan II is typically provided in vials containing 10 mg of lyophilized (freeze-dried) powder. The vials are reconstituted with a convenient amount of bacteriostatic or sterile water, added to the vial by syringe. An example convenient amount of water is 2.5 mL. When this amount of water is used, the resulting solution contains 4 mg of MT-II per mL. If for example wishing to take a dose of 1 mg, a volume of 0.25 mL, or "25 IU" as marked on an insulin syringe, would be taken by injection. Injection may be subcutaneous, intramuscular, or intravenous, according to personal preference.

**Function:**

1. Melanotan II has earned a reputation as a effective way to tan in research subjects. This compound is a research peptide that generates body reactions that lead to a natural sunless tan.
2. It has an impact on sexual desire. Enhancing libido significantly, both sexes have been surprised by increased desire, better moods and greater energy in research circumstances.
3. Can promote tanning.

**Dosages and Usage :**

Like every peptide we have discussed thus far, please remember that peptides come in the form of a white delicate powder and should be stored out of light in a cool dry place. All peptides need to be reconstituted with bacteriostatic water or sodium chloride specifically used for injections. In order to use Melanotan II effectively, you need to understand your skin type. To keep things simple, we can go ahead and break skin types into three categories.

- A:Skin Type 1: Very fair skin, never tans. Dosages: 50-60mgs or 5-6vials.  
B:Skin Type 2: Fair skin, burns but sometimes tans. Dosages: 30-40mgs or 3-4 vials.  
C:Skin Type 3: Medium skin, sometimes burns and always tans. Dosages: 20mgs or 2 vials.

Beyond that, if your pigmentation is already naturally olive or darker, you will need to use less Meanotan II for your tanning needs. The tan results coupled with exposure to sunlight and UV rays should last a user all summer or through a season. Daily Dosages vary depending on your needs:

- A:For Erectile Dysfunction (ED): average dose is around 0.025 mgs/kg (1kg = 2.2 lbs)  
B:For Tanning (skin pigmentation): average dose is 0.025-0.030 mgs/kg (1kg = 2.2 lbs)

**Package and Shipping of Cosmetic Grade Skin Tanning Mt 2 Multifunctional Peptide Mt II Melanotan II**

Package: 5mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

#### FAQ of Cosmetic Grade Skin Tanning Mt 2 Multifunctional Peptide Mt II Melanotan II

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
