

White Powder Growth Hormone Releasing Peptide Melanotan 2 5mg/vial

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan II
- Minimum Order Quantity: 1box
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vial/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, , T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: White Powder Melanotan 2 Peptides
5mg/vial Growth Hormone Releasing Peptide
- Appearance: White Powder
- CAS: 863094-23-9
- Origin: China
- MF: C15H19NO4S2
- MW: 341.44600
- MOQ: 1box
- Specification: 5mg/vial, 10vial/box
- Highlight: **White Powder Melanotan 2 Peptides,
COA Melanotan 2 Peptides,
5mg/vial Growth Hormone Releasing Peptide**

Product Description

What is White Powder Melanotan 2 Peptides 5mg/vial Growth Hormone Releasing Peptide?

Basic Information Form:

Product Name	White Powder Melanotan 2 Peptides 5mg/vial Growth Hormone Releasing Peptide
CAS NO.	863094-23-9
MF	C ₁₅ H ₁₉ NO ₄ S ₂
EINECS NO.	unavailable
Purity	99%
Appearance	White
Place of origin	China
MOQ	1box
Storage	2-8°C

Brief Introduction:

Melanotan 2 is a synthetic peptide that studies have demonstrated to exhibit potent tanning (melanogenesis) and libido enhancing effects. Melanotan II is a variant of alpha melanocyte stimulating hormone (α MSH), a melanocortin peptide hormone which is produced naturally in the body. Structurally, Melanotan II is acyclic heptapeptide analog of the alpha melanocyte stimulating hormone that tends to induce skin tanning.

Melanotan 2

Application:

Melanotan 2 is a synthetic peptide that studies have demonstrated to exhibit potent tanning (melanogenesis) and libido enhancing effects. Melanotan II is a variant of alpha-melanocyte stimulating hormone (α -MSH), a melanocortin peptide hormone which is produced naturally in the body. Structurally, Melanotan II is a cyclic heptapeptide analog of the alpha-melanocyte stimulating hormone (α -MSH) that tends to induce skin tanning. Melanotan II has the additional effect of increasing libido naturally through stimulation of the melanocortin receptors.

Melanotan 2 has been shown in studies to exhibit appetite suppressant, lipolytic, and libido-enhancing effects in addition to promoting skin tanning. Melanotan 2 has been researched extensively for use in protecting against the harmful effects of ultraviolet radiation from sunlight due to its melanogenesis-stimulating properties.

Melanotan II Listeni/mlæntæn/ developed at the University of Arizona is a synthetic analog of the naturally occurring melanocortin peptide hormone alpha-melanocyte stimulating hormone (α -MSH) that in usage has been shown to have melanogenesis (tanning) and aphrodisiac effects in preliminary studies and clinical trials. It is a cyclic lactam analog of α -MSH with the amino acid sequence Ac-Nle-cyclo[Asp-His-D-Phe-Arg-Trp-Lys]-NH₂.

Package and Shipping of White Powder Melanotan 2 Peptides 5mg/vial Growth Hormone Releasing Peptide

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of White Powder Melanotan 2 Peptides 5mg/vial Growth Hormone Releasing Peptide

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
