

Pharmaceutical Grade Growth Hormone Peptide TB 500 Powder 5mg/vial

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB 500
- Minimum Order Quantity: 1BOX
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: T/T, Western Union,
- Supply Ability: 4000kg/Month

Product Specification

- Name: Pharmaceutical Grade Growth Hormone Peptide TB 500 Powder 5mg/vial
- Outlook: White Powder
- Specification: 5mg/vial, 10vials/box
- CAS: 77591-33-4
- Grade: Medicine Grade
- MW: 4963.49
- MF: C212h350n56o78S
- MOQ: 1BOX
- Highlight: **Pharmaceutical TB 500 Peptide, Growth Hormone TB 500 Peptide, 5mg/vial TB 500 Healing**

Product Description

What is Pharmaceutical Grade Growth Hormone Peptide TB 500 Powder 5mg/vial?

Basic Information form:

Product Name	Pharmaceutical Grade Growth Hormone Peptide TB 500 Powder 5mg/vial
Cas No.	77591-33-4
Assay	99%
Appearance	White powder
MF	C212h350n56o78s
Molecular Weight	4963.49
Attention Terms	Store at -20°C

Brief Introduction:

TB-500 is a synthetic molecule in the active region of Thymosin β 4. TB500 can promote endothelial cell differentiation, angiogenesis in dermal tissue, keratinocyte migration, collagen deposition and reduce inflammation.

TB-500 has the healing promoting part of the TB-4 sequence (reference to the whole end of the growth hormone fragment truncated to achieve the effect of extraction), and the main purpose of TB-500 is to promote the upregative ability of cells in vivo. Upregulation increases cellular sensitivity to action, especially in proteins such as actin.

TB500 is a synthetic fraction of the protein thymosin beta-4, which is present in virtually all human and animal cells. The main purpose of this peptide is to promote healing. It also promotes creation of new blood and muscle cells. The healing effects of TB500 have been observed in tendons, ligaments, muscle, skin, heart, and the eyes. Thymosin beta-4 is naturally produced in higher concentration where tissue has been damaged. This peptide is also a very potent anti-inflammatory agent.

Product Image:

Application:

Horse Racing

TB-500 thymosin β -4 is a peptide fragment of a hormone primarily used to treat inflammation caused by various muscle injury or pain.

Medicine

Treat torn or strained muscles, inflammation of tendons and even skin lesions.

Function:

1. The use of TB-500 is mostly used to promote healing, especially the healing of body wounds or joint injuries, tB-500 can be used to treat muscle tear or strain, tendon inflammation and even skin injuries.

2. The peptide did not cause immediate healing of the injured area. If the muscle is torn, it is torn, but in many cases use of the TB-500 speeds up the healing process. For chronic injuries, such as joint stress caused by bodybuilders sweating in the gym every day, the TB-500 can be very protective.

3. The effects of TB-500 can also promote hair growth, especially hair loss caused by androgen alopecia.

Package and Shipping of Pharmaceutical Grade Growth Hormone Peptide TB 500 Powder 5mg/vial

Package: 5mg/vial, 10vials/box

Shipping: With 3-5days after your payment

FAQ of Pharmaceutical Grade Growth Hormone Peptide TB 500 Powder 5mg/vial

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
