

White Powder MK677 for Wounds Healing CAS 159752-10-0

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-MK 677
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: White Powder MK677 For Wounds Healing CAS 159752-10-0
- Purity: 99%
- Color: White
- Material: Powder
- MF: C27H36N4O5S.CH4O3S
- MW: 624.776
- CAS: 159752-10-0
- MOQ: 1kg
- Highlight: **White MK677 Powder,**
CAS 159752-10-0 MK677 Powder,
Wounds Healing ibutamoren powder

Product Description

What is White Powder MK677 for Wounds Healing CAS 159752-10-0?

Basic Information form:

Product Name	White Powder MK677 for Wounds Healing CAS 159752-10-0
Cas No.	159752-10-0
Assay	99%
Appearance	White powder
MF	C ₂₇ H ₃₆ N ₄ O ₅ S.CH ₄ O ₃ S
Molecular Weight	624.776
Attention Terms	Store at -20°C

Brief Introduction:

MK-677 is a non-peptide oral growth hormone that stimulates GH release through receptors different from the growth hormone-releasing hormone receptors in the pituitary and hypothalamus. MK-677, as an effective oral growth hormone secretory, mimics the effects of GH in stimulating endogenous hormones. It has been shown to increase release and produce a sustained increase in plasma hormones, including growth hormone and IGF-1, but does not affect cortisol levels.

MK 677 is a very effective product, especially for the expansion cycle. This is why, after taking MK 677, I am still wondering if this product needs a post-cycle therapy or PCT. But since the product does not inhibit natural testosterone production and does not affect natural growth hormone production, this means post-cycle treatment is not necessary.

The MK 677 is part of the SARMS family. Like most other SARMS, the MK 677 works by targeting specific androgen receptors to alter their function in the body. As a result, this stimulation mimics the anabolic effects of steroids and prohormones. MK 677 is very similar to peptides like Ipamorelin and GHRP-6, but you won't experience any of the typical side effects.

MK 677 users say they've noticed a positive change in their overall body shape in just a few days. In addition to their muscles looking fuller and more vascularized than before, the gains they can make are also more obvious.

Product Image:

Function:

1. Maintain a positive nitrogen balance.
2. Anti-catabolic effect, protects muscle mass from degradation
3. Improve performance and condition
4. Speeds up fat metabolism – helps burn excess body fat and prevent its re-storage

5. Heal old wounds and injuries
6. Improve sleep quality, brings a very strong feeling of freshness, energy and vitality
7. Improvement in the condition and quality of the skin
8. Helps to smooth out wrinkles
9. Anti-aging, rejuvenates the body, acts against aging
