

Anabolicum White Raw Powder LGD4033 for Muscle Growth CAS 1165910-22-

4

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-LGD 4033
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: Anabolicum Powder LGD4033 For Muscle Growth CAS 1165910-22-4
- Purity: 99%
- Color: White
- Material: Powder
- MF: $C_{14}H_{12}F_6N_2O$
- MW: 338.25
- CAS: 1165910-22-4
- MOQ: 1kg
- Highlight: 5mg female LGD4033, Anabolicum LGD4033, CAS 1165910-22-4 Muscle Growth Powder

Product Description

What is Anabolicum Powder LGD4033 for Muscle Growth CAS 1165910-22-4

Basic Information form:

Product Name	Anabolicum Powder LGD4033 for Muscle Growth CAS 1165910-22-4
Cas No.	1165910-22-4
Assay	99%min
Appearance	white powder
MF	C ₁₄ H ₁₂ F ₆ N ₂ O
Molecular Weight	338.25
Attention Terms	keep in cool and dry place

Brief Introduction:

LGD-4033 was originally discovered by Ligand Pharmaceuticals and is currently being developed by Viking Therapeutics as VK5211. From the outset, LGD-4033 was considered to have better safety, acceptability, and patient acceptability resulting in the therapeutic benefits of testosterone due to its tissue-selective mechanism of action and its oral form of administration.

LGD-4033, also known as Ligandrol and Anabolicum, is the strongest oral bioavailable nonsteroidal selective androgen receptor modulator (SARM) currently on the market.

Ligandrol is popular with athletes, powerlifters and bodybuilders for its bulk and cutting capabilities, which can produce steroid-like results with no side effects.

It's considered a good addition for those who want to retrain: to reduce body fat and increase muscle mass.

Dosage :

Benefits have been recorded for doses as low as 3-10mg every 24 to 36 hours. Subjects were known to tolerate treatments with significant benefits after 2 weeks, and continued to improve for up to 5 months (20 weeks). Note that the study concluded that tolerance increased after 3 months and the benefit continued to decrease.

Many male users report that the ideal upper limit for LGD-4033 is 10mg daily morning for 12 weeks.

Although some women have reported using LGD-4033, it has been suggested that it may lead to masculinization and a lower dose is recommended. Women are advised to stick to the maximum of 5mg a day.
