

HPLC 99% Purity MR Ligandrol LGD4033 CAS 1165910-22-4 LGD Powder

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-LGD 4033
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: HPLC 99% Purity MR Ligandrol LGD4033
CAS 1165910-22-4 LGD Powder
- Purity: 99%
- Color: White
- Material: Powder
- MF: $C_{14}H_{12}F_6N_2O$
- MW: 338.25
- CAS: 1165910-22-4
- MOQ: 1kg
- Highlight: **HPLC MR LGD4033,**
HPLC MR Ligandrol LGD4033,
HPLC MR CAS 1165910-22-4 lgd powder

Product Description

What is HPLC 99% Purity MR Ligandrol LGD4033 CAS 1165910-22-4 LGD Powder?

Basic Information form:

Product Name	HPLC 99% Purity MR Ligandrol LGD4033 CAS 1165910-22-4 LGD Powder
Cas No.	1165910-22-4
Assay	99%
Appearance	White powder
MF	C ₁₄ H ₁₂ F ₆ N ₂ O
Molecular Weight	338.25
Attention Terms	Store at -20°C

Brief Introduction:

LGD-4033 selectively targets muscle and bone tissue LGD-4033 has a reputation in the bodybuilding industry as the strongest SARM on the market and is considered one of the best supplements for building lean muscle without the side effects of steroids.

Due to its anti-catabolic and anabolic activities, Ligandrol is well suited for reprocessing as it allows users to batch and cut at the same time. This makes it a standout addition to your fitness kit, stacking well with other Sarms to get incredible results.

The LGD-4033 has a high affinity for muscle and bone AR rather than prostate, liver or sebaceglands, which makes it an ideal SARM for building and maintaining muscle mass and bone mineral density.

Existing performed clinical trials unequivocally confirmed the high anabolic activity of LGD-4033 and its unique ability to build new muscle growth and increase strength. In a test involving 116 volunteers, a dose of just 1 mg of LGD-4033 per day produced a visible improvement in muscle mass and quality, strength and a decrease in body fat percentage in men who took it for 21 days. In another test, it was shown that even a relatively high dose of 22 mg LGD-4033 administered daily for several weeks did not cause any adverse effects, health problems or stomach problems. In addition to the increase in muscle mass and strength, the use of LGD-4033 in men also brought other beneficial effects, in the form of very good regeneration, reduction of body fat, overall improvement of health and a feeling of overall well-being and vitality.

Product Image:

**Function:**

1. LGD 4033 can increase muscle mass. The clear main benefit of adding Anabolicum is its ability to increase lean muscle mass while swelling without increasing fat.
2. LGD 4033 can improve strength and endurance. One key study measured participants' speed and strength in climbing stairs as an indicator of muscle strength and endurance. The results of the 21-day study showed that participants' stair climbing speed and strength improved as a result of LGD 4033.
3. LGD 4033 selectively targets muscle and bone tissue. As a true SARM, LGD is almost exclusively targeted at muscle and bone tissue, which is why it is being researched to prevent and treat cachexia, sarcoma, osteoporosis and recovering from hip fractures in the elderly.
4. LGD 4033 can increase fat loss. LGD has amazing anti-catabolic activity, meaning it prevents hard-won muscles from collapsing. This is why some users gain lean body mass even in the absence of calories.
5. LGD 4033 can improve mental health. Many users reported feeling positive, strong, and "alpha" when taking Ligandrol. This state of mental health and a mild sense of what some call "aggression" can help boost their fitness in the gym.
6. LGD 4033 can help patients recover from hip fractures. It helps increase bone mineral density as well as lean muscle mass without the side effects of traditional treatments such as steroids, making it a promising treatment for other neglected populations.

Package and Shipping of HPLC 99% Purity MR Ligandrol LGD4033 CAS 1165910-22-4 LGD Powder**Package:**

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5days after your payment

FAQ of HPLC 99% Purity MR Ligandrol LGD 4033 CAS 1165910-22-4 LGD Powder

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
