

USP36 Testosterone Powder Testosterone Enanthate Powder CAS 57-85-2

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone
- Minimum Order Quantity: 1 kg
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25kg Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product: USP36 Testosterone Powder Testosterone Enanthate Powder CAS 57-85-2
- Outlook: White Powder
- CAS: 57-85-2
- MF: C45h55n9o6
- MW: 344.49
- Storage: -20-4
- Highlight: **USP36 Testosterone Powder,
Injectable Testosterone Powder,
CAS 57-85-2 Testosterone Enanthate Powder
Legal**

Product Description

What is USP36 Testosterone Powder Testosterone Enanthate Powder CAS 57-85-2?

Basic Information form:

Product Name	USP36 Testosterone Powder Testosterone Enanthate Powder CAS 57-85-2
Cas No.	57-85-2
Assay	99%
Appearance	White powder
MF	C45h55n9o6
Shelf Life	2 years
Attention Terms	-20-4

Brief Introduction:

Testosterone propionate (Test p, Test prop, TP) is a male sex hormone responsible for producing male-specific sexual characteristics. It is linked to an ester to delay its release into the body. It is the shortest ester and requires the body to get rid of the ester and release the mother in the least amount of time. Hormone enters the body.

Testosterone propionate (Test p, Test prop, TP) has a short activity life and usually needs to be injected at least once every other day. However, the side effects are minimal and the bloating is minimal; if you stop using it, the side effects will quickly subside.

Product Image:

**Application:**

Testosterone propionate (Test p, Test prop, TP) can enhance libido, energy, immunity, increase fat loss, gain and maintain lean muscle mass, prevent osteoporosis (lower bone density) and protect the heart.

Testosterone propionate (Test p, Test prop, TP) promotes and maintains the normal growth and development of male sex organs, resulting in increased muscle mass. By binding to the androgen receptor (AR), resulting in increased muscle mass, reduced fat, and improved muscle repair And growing.

Testosterone propionate (Test p, Test prop, TP) can be used as a drug substance to maintain stable blood levels. Promotes metabolism, including anabolic effects such as increased muscle mass and strength, increased bone density and strength, and linear growth and skeletal maturity.

Function:

There are principally two desirable effects of Testosterone:

1. Physical / Athletic performance enhancement (endurance, strength, faster regeneration) physique enhancement (muscle buildup, fat loss)

The rest of desirable testosterone effects that an individual might experience during the steroid cycle, include: increase in collagen synthesis and bone mineral content. Collagen is the protein-based construction material for connective tissues throughout the body (the ligaments, tendons, cartilage, joints, and bones).

2. Heightened self esteem

(1) Deeper (manly) voice

(2) Darkening and thickening of body hair

(3) Increase in levels of IGF-1 and MGF hormones (which also promote muscle growth)

(4) Increased hemoglobin (red blood cell count) anti-catabolic effect on muscle tissues by way of acting as an anti-glucocorticoid.

Package and Shipping of USP36 Testosterone Powder Testosterone Enanthate Powder CAS 57-85-2**Package:**

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg:inner: Double PE bags; Outside: 25kg/ fibre drum

**Shipping:**

With 3-5 days after your payment

FAQ of USP36 Testosterone Powder Testosterone Enanthate Powder CAS 57-85-2

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?
