Product Description

What is CAS No 315-37-7 Athletes Bodybuilding Raw Powder Testosterone?

Brief Introduction:

Testosterone Enantate Can be Applied to male sexual inadequacy, sex organ dysplasia, infertility, cryptorchidism and infertility. Testosterone Enantate Can also be used for female functional uterine bleeding, climacteric syndrome, breast cancer and genital cancer; Liver cirrhosis, aplastic anemia, osteoporosis and other wasting disease.

Testosterone enanthate exhibits a strong androgenic effect and good anabolic characteristics as well. Combined with other steroid compounds, Primoteston Testosterone Enantate is the most common stack used in the bodybuilding community, and will give great results in almost every case.

Testosterone Enanthate is one of the most popular form of testosterone prescribed everywhere in the world. Testosterone Enanthate steroids are very concentrated forms of hormonal substance that is why it can boost the levels of testosterone in the body very quickly. Athletes take exogenous testosterone to increase muscle strength and size.

Results indicated that weekly injections of the hormone decreased waist size and body weight. Supplement use also improved the men's sexual performance. The treatment was considered safe, as no malignancies were observed during biopsies.

Using Testosterone Enanthate is a very effective way to increase the production of testosterone hormones in the body. Furthermore, it is also beneficial to athletes and body builders as they can develop muscle mass quickly to be able to carry out maximum performance.

Basic Information form:

**Application:**

For Medical Field:

Testosterone Enanthate is most commonly used clinically to maintain the normal levels of testosterone needed by adult men whose androgen levels are too low. Low androgen levels are characterized by low libido, emaciation, small muscle mass, and daily mental drowsiness. Testosterone Enanthate is also used to treat abnormal testicular development and delayed puberty in adolescent males.

For Sports Field:

Testosterone Enanthate is best suitable for muscle builders and sportsmen looking to gain the advantages of efficiency improving medications without the severe adverse reactions.

Function:

For Man

Applied to sexual inadequacy, sex organ dysplasia, infertility, cryptorchidism and infertility.

For Woman

Functional uterine bleeding

Climacteric syndrome

Breast cancer

Genital cancer

Liver cirrhosis

Aplastic anemia

Osteoporosis

Other wasting disease.
