

CAS 58-20-8 Injectable Testosterone Powder 25kg for Muscle Growth

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Testosterone Cypionate
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: T/T, Western Union,
- Supply Ability: 3000kg/Month

Product Specification

- Name: Testosterone
- MF: C₂₇H₄₀O₃
- MW: 412.6
- Purity: 99%
- Appearance: White Or Quasi-white Crystalline Powder
- Storage: 2-8
- Highlight: **Injectable Pure Testosterone Powder, CAS 58-20-8 Pure Testosterone Powder, 25kg muscle growth powder**

Product Description

CAS 58-20-8 Injectable Testosterone Powder 25kg for Muscle Growth

Cyclovalproate is a long-acting injectable ester of testosterone. Testosterone is also the primary metabolic hormone in men and is the basis for comparison of all other anabolic/androgen steroids. Like all testosterone injections, testosterone cyclopropionate is favored by athletes for its ability to promote increased muscle mass and strength. It is important to note that although a large number of other steroids have emerged since testosterone injections, they are still considered a major force in bodybuilders.

Testosterone first appeared on the U.S. drug market in the mid-1950s as depo-Justify cyclopentylpropionate (soon known as Depo-Justify). It was developed by pharmaceutical giant Upjohn and is still sold by the same company under the same trade name (although they are now called Pharmacia & Upjohn). This is a drug with limited global availability and has historically (for the most part) been identified as an American program because it is largely rare or unavailable in other countries. Not surprisingly, U.S. athletes have long preferred to use testosterone cyclopropionate over testosterone heptanate, the dominant slow-acting testosterone on the global market. However, this preference may stem from history and availability rather than actual therapeutic advantages.

Product Name	CAS 58-20-8 Injectable Testosterone Powder 25kg for Muscle Growth
Appearance	White, powder
Assay	99%
Test	HPLC
CAS	58-20-8
Storage	2~8 centigrade

Dosage

In hypogonadal males, the effect of a single injection of 200 to 400 mg of testosterone cypionate was observed to be maintained for 2 to 4 weeks, which is 2 to 4 times longer than the effect produced by a comparable dose of testosterone propionate.

Actually, almost everything written about testosterone enanthate can be applied to testosterone cypionate. Most athletes will not even notice the difference between the two compounds.

Benefits

Testosterone Cypionate induces changes in shape, size and can also change the appearance and the number of muscle fibers. In addition, Testosterone Cypionate has the ability to increase red blood cell production and a higher red blood cell count will improve endurance through increased oxygenation in the blood. More red blood cells can also improve recovery from strenuous physical activity. Even so, Testosterons anabolic/ androgenic effects are dose dependent; The higher the dose the higher the muscle building effect.

Application

1. Testosterone cypionate is a synthetic androgen, mainly used in the clinical treatment of infertility or infertility;
2. Testosterone cypionate is use for cryptorchidism,
3. It can treat pituitary dwarfism, senile osteoporosis, menopausal syndrome.
4. It can treat non-testosterone or non-testosterone.

Package and Shipping of CAS 58-20-8 Injectable Testosterone Powder 25kg for Muscle Growth

1. Packing:

- (1) Under 25kg: inner: PE bag then aluminum foil bag; outside: carton

(2) Over 25kg: 25kg/drum inner with double PE bags; outside with fibre drum.

2. Shipping:

3~5 days, after your payment

FAQ of CAS 58-20-8 Injectable Testosterone Powder 25kg for Muscle Growth

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
