

Pharmaceutical Antibiotics Powder Clindamycin Phosphate CAS 24729-96-2

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Clindamycin Phosphate
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: Clindamycin Phosphate
- CAS: 24729-96-2
- Molecular Weight: 504.96
- Appearance: White Powder
- Shelf Life: 2 YEARS
- MOQ: 1kg
- Storage: 2~8 Centigrade
- Certificate: GMP, ISO 9001
- Highlight: **Pharmaceutical Antibiotics Powder,
99% Antibiotics Powder,
CAS 24729-96-2 Clindamycin Phosphate**

Product Description

Pharmaceutical Antibiotics Powder Clindamycin Phosphate CAS 24729-96-2

Basic Information:

Product Name	Pharmaceutical Antibiotics Powder Clindamycin Phosphate CAS 24729-96-2
CAS	24729-96-2
Purity	99%min
MW	504.96
Storage	Cool and Dry
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

Clindamycin phosphate is a chemical semi-synthetic Clindamycin derivative. It has no antibacterial activity in vitro, and is rapidly hydrolyzed into clindamycin in the body to show its pharmacological activity. Therefore, the antibacterial spectrum, antibacterial activity and therapeutic effect are the same as clindamycin, but the lipid solubility and permeability are better than clindamycin. It can be orally, intramuscular injection and intravenous drip. It mainly has strong antibacterial activity to G+ coccus and anaerobic bacteria. Compared with lincomycin, the antibacterial effect of lincomycin is 4 ~ 8 times stronger, with good absorption, high bone concentration and good effect on anaerobic infection. After entering the body, the product was hydrolyzed to clindamycin under the action of alkaline phosphatase in the blood. It is mainly metabolized in the liver and excreted by bile and feces, and partly excreted by urine.

Product Image:

**Function:****1. Treat respiratory infections**

If acute bronchitis, chronic bronchitis acute attack, pneumonia, lung abscess, empyema, anaerobic bacteria lung disease, bronchiectasis combined with infection, suppurative otitis media, sinusitis.

2. Treat urinary tract infection

Be like acute urethritis, acute pyelonephritis, prostatitis.

3. Treat female pelvic and genital infections

If uterine endometritis, blame gonococcus sex fallopian tube and ovarian abscess, pelvic cavity cellulitis and infection after department of gynaecology operation, often need to be combined with aminoglycoside kind of medicine.

4. Treat skin and soft tissue infection

Such as vulgaris acne, furuncle, carbuncle, abscess, cellulitis, trauma and post-operative

Package and Shipping of Pharmaceutical Antibiotics Powder Clindamycin Phosphate CAS 24729-96-2

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

shipping:

With 3-5 work days after your payment

FAQ of Pharmaceutical Antibiotics Powder Clindamycin Phosphate CAS 24729-96-2

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
