

99% Purity Pharmaceutical Raw Powder Griseofulvin for Anti-Inflammation

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Griseofulvin
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: 99% Purity Pharmaceutical Griseofulvin Raw Powder For Anti-Inflammation
- CAS No: 126-07-8
- Outlook: White Or Almost White Crystalline Or Powder
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperature: Preserve In Tight, Light-resistant Containers In A Cool Place
- Molecular Formula: $C_{17}H_{17}ClO_6$
- MW: 352.77

Product Description

What is 99% Purity Pharmaceutical Griseofulvin Raw Powder for Anti-Inflammation?

Basic Information:

Product Name	99% Purity Pharmaceutical Griseofulvin Raw Powder for Anti-Inflammation
CAS	126-07-8
Purity	99%min
MF	C ₁₇ H ₁₇ ClO ₆
Storage	Preserve in tight, light-resistant containers in a cool place
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

Griseofulvin is a non-polyene class antifungal antibiotics; it can strongly inhibit the mitosis of fungal cell and interfere with the fungal DNA synthesis; it can also bind to tubulin to prevent fungal cell division. It has been applied to clinical medicine since 1958 and has currently been widely used for treating the fungal infections of the skin and the stratum corneum with strong inhibitory effects on *Trichophyton rubrum* and *Trichophyton tonsorans*, etc. Griseofulvin is not only a widely used antibiotic for clinical treatment of fungal infections of the skin and cuticle, but also applied in agriculture for prevention and treatment of fungal diseases; for example, it has a special efficacy on treating a kind of candidiasis in apple which can cause infection during pollination.
