

Veterinary Raw Powder Colistin Sulfate for Animals' Growth-Promoting

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Colistin Sulphate
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 5000kg/Month

Product Specification

- Product Name: Veterinary Raw Powder Colistin Sulfate For Animals' Growth-Promoting
- CAS No: 1264-72-8
- Outlook: White Powder
- Assay: 99% Min
- Shelf Life: 2 Years
- Storage Temperature: -20°C Keep Dry And Away From Light.
- Molecular Formula: $2(C_{52}H_{98}N_{16}O_{13}) \cdot 5(H_2SO_4)$
- MW: 2801.27

Product Description

What is Veterinary Raw Powder Colistin Sulfate For Animals' Growth-Promoting?

Basic Information:

Product Name	Veterinary Raw Powder Colistin Sulfate For Animals' Growth-Promoting
CAS	1264-72-8
Purity	99%min
MF	$2(C_{52}H_{98}N_{16}O_{13}) \cdot 5(H_2SO_4)$
Storage	-20°C Keep Dry and Away From Light.
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

Colistin sulfate is highly effective against strains of *Escherichia coli*, *Pseudomonas aeruginosa*, *Salmonella* spp., *Haemophilus* spp., *Shigella* spp., *Pasteurella* spp., *Brucella* spp., *Aerobacter aerogenes* and *Bordetella bronchiseptica*.

Gram positive bacteria are generally less sensitive, but there are some sensitive strains such as *Staphylococcus* spp., *Bacillus* spp., *Streptococcus pyogenes* and *Corynebacterium* spp.

Colistin sulfate is an antibiotic polypeptide which possesses activity mainly against Gram negative bacteria, and in veterinary medicine is used orally for the treatment or prevention of enteritis in production animals.

Product Image:

**Application:**

1. A growth promoter used in Peru in poultry and pork production is sulfate colistin, an antibiotic belonging to the polymyxin group.
2. To heal Salmonellosis

It is an important disease in poultry and pork production, because of the implications that arise in Public Health, the restrictions on the marketing of products from infected farms and the impact on health programs of farms. The most common clinical manifestation of this disease is enteritis, which is often presented as a bloody or profuse watery diarrhea accompanied by fever, but you can see a broad spectrum of clinical symptoms, such as acute septicemia, abortion, arthritis, necrosis on extremities and respiratory disease.

3. Colistin Sulfate is used to treat intestinal infections caused by Gram negative bacilli (E. coli, etc.), and is also effective against *Pseudomonas aeruginosa* infections (sepsis, urinary tract infections, burns or trauma, wound infections).

Function:

1. Colistin Sulfate is an antibiotic of basic polypeptides composed.
2. Colistin Sulfate has strong antibiotic effect against intestinal diseases caused by gram-negative bacilli.
3. Colistin Sulfate is used as feed additive.

Package and Shipping of Veterinary Raw Powder Colistin Sulfate For Animals' Growth-Promoting

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 work days after your payment

FAQ of Veterinary Raw Powder Colistin Sulfate For Animals' Growth-Promoting

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.
