

99% Purity Pharmaceutical Raw Material Roxithromycin for Hair Loss

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Roxithromycin
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Pharmaceutical Raw Material Roxithromycin With 99% Purity For Hair Loss
- CAS No: 80241-83-1
- Outlook: White Powder
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperature: Cool Dry Area
- Molecular Formula: C₄₁H₇₆N₂O₁₅
- MW: 514.63

Product Description

What is Pharmaceutical Raw Material Roxithromycin with 99% Purity For Hair Loss?

Basic Information:

Product Name	Pharmaceutical Raw Material Roxithromycin with 99% Purity For Hair Loss
CAS	80241-83-1
Purity	99%min
MF	C ₄₁ H ₇₆ N ₂ O ₁₅
Storage	Cool Dry Area
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

Roxithromycin is a new generation of macrolides antibiotics, which is a semi-synthetic 14 macrolides drug. Its mechanism of action is the same as erythromycin, mainly binding to bacteria 50S ribosomal subunit, inhibiting bacterial protein synthesis by blocking peptide transfer and mRNA transfer, thus playing an antibacterial role. It is characterized by rapid entry into macrophages, lung cells, alveoli, polymorphonuclear leukocytes. Roxithromycin antibacterial spectrum is similar to erythromycin, its antibacterial effect in vitro is similar to erythromycin, antibacterial effect in vivo is 1~4 times stronger than erythromycin.

Roxithromycin is acid resistant and not damaged by gastric acid. It is well absorbed from gastrointestinal tract and has high blood concentration (peak blood concentration of roxithromycin is the highest among all macrolides). A single oral dose of 150mg reached the peak blood concentration of 6.6~7.9µg/mL after 2 hours. The distribution of the drug in tissues and body fluids was higher than erythromycin after absorption. The concentrations of drugs in tonsils, sinuses, middle ears, lungs, sputum, prostate and other genitourinary tract tissues are effective.

Product Image:

**Application:**

1. For the treatment of pharyngitis and tonsillitis caused by streptococcus pyogenes.
2. For the treatment of acute attack of sinusitis, otitis media, acute bronchitis and chronic bronchitis caused by sensitive bacteria.
3. For the treatment of pneumonia caused by Mycoplasma pneumoniae or chlamydia pneumoniae; Urethritis and nonspecific urethritis (cervicitis) caused by Chlamydia trachomatis.
4. For the treatment of skin and soft tissue infection caused by sensitive bacteria. Genitourinary system infection.

Function:

Roxithromycin is a semi-synthetic macrolide antibiotic.

Roxithromycin is used to treat respiratory tract, urinary and soft tissue infections.

Roxithromycin is also currently undergoing clinical trials for the treatment of male-pattern hair loss.

Package and Shipping of Pharmaceutical Raw Material Roxithromycin with 99% Purity For Hair Loss

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

**Shipping:**

With 3-5 work days after your payment

FAQ of Pharmaceutical Raw Material Roxithromycin with 99% Purity For Hair Loss

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
