

99% HPLC Cosmetic Grade Peptide Palmitoyl Tetrapeptide-7 for Anti-Aging

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Palmitoyl Tetrapeptide-7
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: 99% HPLC Cosmetic Grade Peptide Palmitoyl Tetrapeptide-7 For Anti-Aging
- CAS No: 221227-05-0
- Outlook: White Powder
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperature: +25°C
- Molecular Formula: C₃₄H₆₂N₈O₇
- MW: 694.91

Product Description

What is 99%HPLC Cosmetic Grade Peptide Palmitoyl Tetrapeptide-7 For Anti-Aging?

Basic Information:

Product Name	99%HPLC Cosmetic Grade Peptide Palmitoyl Tetrapeptide-7 For Anti-Aging
CAS	221227-05-0
Purity	99%min
MF	c34h62n8o7
Storage	+25°C
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

It is a synthetic peptide that's part of Matrixyl 3000, which also contains palmitoyl oligopeptide, and is believed to work as a skin-restoring ingredient with anti-aging benefits.

This peptide is composed of four amino acids plus fatty acid palmitic acid to enhance stability and penetration into the skin. Peptides have different functions on skin, and this particular peptide, on its own or as part of Matrixyl 3000, helps to replenish skin's surface and calm visible signs of sensitization.

Product Image:

Function

Palmitoyl Tetrapeptide-7 has been used in beauty products and cosmetics to reduce the cumulative amount of damage that occurs following exposure to UV light, pollution, internal stress, and other pro-inflammatory factors. It is used to counteract skin slackening and to perk up and increase the firmness of the fragile skin area around eyes.

Application

Palmitoyl oligopeptides are the name of both the group of ingredients and the name of one specific ingredient. Palmitoyl oligopeptides are named after the first ingredient that was discovered. The subsequent ingredients with similar chemical structures were identified and given different names to characterize their structure and difference in function. However, the first discovered palmitoyl oligopeptide kept its name and became the name for this group of ingredients.

Palmitoyl oligopeptides are peptide or small proteins, characterized by a generic structure of a string of amino acids. Generally, palmitoyl oligopeptides have similar uses in skincare, and cosmetic formulations are often used as an anti-aging ingredient. They are thought to be beneficial in anti-aging formulations due to their potential to help stimulate collagen production and promote healthy cell functioning. The three most commonly used palmitoyl oligopeptides in skincare formulations are palmitoyl tripeptide-5, palmitoyl tetrapeptide-7, and palmitoyl oligopeptide. They are all synthetically made.

Package and Shipping of 99%HPLC Cosmetic Grade Peptide Palmitoyl Tetrapeptide-7 For Anti-Aging

Shipping:

With 3-5 work days after your payment

FAQ of 99%HPLC Cosmetic Grade Peptide Palmitoyl Tetrapeptide-7 For Anti-Aging

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1 BOX.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
