

Pharmaceutical Lyophilized Peptide Muscle Growth 99% PEG MGF

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-PEG-MGF
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Pharmaceutical Muscle Growth Lyophilized Peptide PEG-MGF For Bodybuilding
- CAS No: 82602-88-8
- Outlook: White Powder
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperture: -20°C
- Molecular Formula: C₁₂₁H₂₀₀N₄₂O₃₉
- MW: 2867.14
- Highlight: **Muscle Growth Lyophilized Peptide,
Pharmaceutical Lyophilized Peptide,
99% peg mgf peptide**

Product Description

What is Pharmaceutical Muscle Growth Lyophilized Peptide PEG-MGF For Bodybuilding?

Basic Information:

Product Name	Pharmaceutical Muscle Growth Lyophilized Peptide PEG-MGF For Bodybuilding
CAS	82602-88-8
Purity	99%min
MF	C121h200n42o39
Storage	-20°C
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

PEG-MGF is a new and innovative form of MGF that outperforms natural MGF many times over. MGF is a splice variant of the GF gene which increases stem cell count in the muscle and allows for muscle fibers to fuse and mature. This is a process required for growth of adult muscle. Natural MGF is made locally and does not travel into the bloodstream.

The biggest disadvantage of MGF is its short active time. PEG-MGF is an upgraded version of MGF, which can increase the half-life of MGF from a few minutes to a few hours by adding PEG (polyethylene glycol, a non-toxic additive) to MGF. The extended active time means that its usefulness and versatility will be greatly improved, and PEG-MGF has systemic effects where muscle is damaged or diseased, rather than being limited to a single point.

Product Image:

Application:

1 MGF derived from exercised or damaged muscle tissue. MGF has the ability to cause wasted tissue to grow and improve by activating muscle stem cells and increasing the upregulation of protein synthesis, this unique ability can rapidly improve recovery and speed up muscle growth.

2 MGF can initiate muscle satellite (stem) cell activation in addition to its IG-1 receptor domain which, in turn, increases protein synthesis turnover; Therefore, if used correctly it can improve muscle mass over time.

Function:

1. Freeze protection, heat transfer and hydraulic fluids; na gas and hydrocarbon treating agents;
2. Hydroscopic agents for paper, cork and textile conditioning;
3. Plasticizer formulations and raw materials for ester and polyester production.
4. The ethylene glycol family's solvency properties are useful

Package and Shipping of Pharmaceutical Muscle Growth Lyophilized Peptide PEG-MGF For Bodybuilding

Shipping:

With 3-5 work days after your payment

FAQ of 99% Pharmaceutical Muscle Growth Lyophilized Peptide PEG-MGF For Bodybuilding

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1 BOX.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
