

CAS 1228558-05-1 Body Building Peptides 99% Cosmetic Grade

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Palmitoyl Tetrapeptide-7
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Cosmetic Grade Product Palmitoyl Tetrapeptide-7 Powder CAS 1228558-05-1
- CAS No: 1228558-05-1
- Outlook: White Powder.
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperature: +25°C
- Molecular Formula: C₃₄H₆₂N₈O₇
- MW: 694.91
- Highlight: CAS 1228558-05-1 99% Body Building Peptides,
CAS 1228558-05-1 Body Building Peptides,
CAS 1228558-05-1 Cosmetic Grade peptide powder

Product Description

What is Cosmetic Grade Product Palmitoyl Tetrapeptide-7 Powder CAS 1228558-05-1?

Basic Information:

Product Name	Cosmetic Grade Product Palmitoyl Tetrapeptide-7 Powder CAS 1228558-05-1
CAS	1228558-05-1
Purity	99%min
MF	c34h62n8o7
Storage	+25°C
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

Palmitoyl Tetrapeptide-7 mimics the activity of DHEA, the youth hormone that functions to reverse IL-6 over-production, and therefore reduce the aging symptoms as well as the phenomenon of immunosenescence.

Palmitoyl Tetrapeptide-7 can enhance the functions in a variety of skin care and color cosmetic formulation. They are available in both water dispersible form (Corum 8804) and oil dispersible form (Corum 8814 / 8814CC).

Product Image:

Function

1. Mimics DHEA activity to regulate and maintain cellular regeneration
2. Restores cellular activity
3. Wound healing
4. Anti edema,
5. Improve microcirculation of the blood,
6. Strengthen blood circulation,
7. Eliminate inflammation,
8. Resist pouch and dilute the fine lines and cow's feet around eyes
9. Delay the effects of premature aging by improving the elasticity and firmness of the skin.
10. Hydrate, protect and smooth skin.

Application

Palmitoyl oligopeptides are the name of both the group of ingredients and the name of one specific ingredient. Palmitoyl oligopeptides are named after the first ingredient that was discovered. The subsequent ingredients with similar chemical structures were identified and given different names to characterize their structure and difference in function. However, the first discovered palmitoyl oligopeptide kept its name and became the name for this group of ingredients.

Palmitoyl oligopeptides are peptide or small proteins, characterized by a generic structure of a string of amino acids. Generally, palmitoyl oligopeptides have similar uses in skincare, and cosmetic formulations are often used as an anti-aging ingredient. They are thought to be beneficial in anti-aging formulations due to their potential to help stimulate collagen production and promote healthy cell functioning. The three most commonly used palmitoyl oligopeptides in skincare formulations are palmitoyl tripeptide-5, palmitoyl tetrapeptide-7, and palmitoyl oligopeptide. They are all synthetically made.

Package and Shipping of Cosmetic Grade Product Palmitoyl Tetrapeptide-7 Powder CAS 1228558-05-1

Shipping:

With 3-5 work days after your payment

FAQ of Cosmetic Grade Product Palmitoyl Tetrapeptide-7 Powder CAS 1228558-05-1

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1 BOX.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
