

99% Piroxicam Beta Cyclodextrin Powder

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Fenbendazole
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Pharmaceutical Grade API 99% Piroxicam Beta Cyclodextrin Powder
- CAS No: 96684-39-8
- Outlook: White Powder
- Assay: 99%Min
- Shelf Life: 2 YEARS
- Storage Temperature: In Cool,dry Place.keep Away Straight Lighting
- Molecular Formula: C₅₄H₁₀₂O₃₉
- MW: 1375.36
- Highlight: 99% Piroxicam Beta Cyclodextrin Powder , API Beta Cyclodextrin Powder, C₅₄H₁₀₂O₃₉ Antibiotics Powder

Product Description

What is Veterinary Chemicals 99% Purity Fenbendazole CAS 43210-67-9?

Basic Information:

Product Name	Pharmaceutical Grade API 99% Piroxicam Beta Cyclodextrin Powder
CAS	96684-39-8
Purity	99%min
MF	C54H102O39
Storage	In cool,dry place.keep away straight lighting
Deliver Time	Within 24 Hours After Receiving The Payment
MOQ	1KG

Brief Introduction:

Hydroxypropyl- β -cyclodextrin is less toxic than the parent cyclodextrin, is non-toxic orally, and has low hemolytic properties.

Proven for oral and injection through a large number of animal experiments and clinical trials

Hydroxypropyl beta-cyclodextrin are purified polydisperse products resulting from the controlled reaction of oxide and native beta-cyclodextrin.

Hydroxypropyl beta-cyclodextrin is itself very soluble in water (greater than 500 mg/ml at room temperature compared to 18 mg/ml for beta-cyclodextrin), and is used for molecular encapsulation of a variety of sparingly water compounds to enhance the aqueous solubility of the encapsulated compound.

Product Image:

Application:

In Pharmaceuticals

Hydroxypropyl beta cyclodextrin is a solution to insoluble or low solubility drugs(including plant extracts).Through molecular encapsulation,it could increase the drug solubility and control the release rate of the drug,increase the drug's bioavailability and reduce the toxic side-effets.

In Food

Hydroxypropyl beta cyclodextrin could increase the stability of molecular nutrition and long-time effect,cover up or adjust bad smell and tastes of food nutrition molecular,improve production process and product quality and extend the shelf-life.

In Cosmetics

Hydroxypropyl beta cyclodextrin used as stabilizer, emulsifier and odor absorber. It could reduce organic molecules stimulation to skin mucosal and enhance the stability of the effective components. Prevent volatile, oxidation of nutrient composition, increase the solubility of insoluble flavours and fragrances and keep the fragrance slow releasing and lasting.

Function:

Hydroxypropyl beta cyclodextrin is a solution to insoluble or low solubility drugs (including plant extracts). Through molecular encapsulation, it could increase the drug solubility and control the release rate of the drug, increase the drug's bioavailability and reduce the toxic side-effects.

Package and Shipping of Pharmaceutical Grade API 99% Piroxicam Beta Cyclodextrin Powder

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 work days after your payment

FAQ of Pharmaceutical Grade API 99% Piroxicam Beta Cyclodextrin Powder

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
