

CAS 77591-33-4 TB 500 Peptide Thymosin Beta 4 Acetate For Fitness

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB500
- Minimum Order Quantity: 1 BOX
- Price: Negotiable
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: Raw Polypeptides Thymosin Beta 4 Acetate TB500 For Fitness Use
- Appearance: White Powder
- MW: 4963.49
- MF: C212h350n56o78S
- CAS: 77591-33-4
- Grade: Pharmaceutical Grade
- Assay: >99%
- Specification: 5mg/vial, 10vials/box
- Highlight: **Pharmaceutical TB 500 Peptide, CAS 77591-33-4 TB 500 Peptide, Thymosin Beta 4 Acetate**

Product Description

What is Raw Polypeptides Thymosin Beta 4 Acetate TB500 for Fitness Use?

Basic Information form:

Product Name	Raw Polypeptides Thymosin Beta 4 Acetate TB500 for Fitness Use
Cas No.	77591-33-4
Assay	99%
Appearance	White powder
MF	C ₂₁₂ H ₃₅₀ N ₅₆ O ₇₈ S
Molecular Weight	4963.49
Attention Terms	Store at -20°C

Brief Introduction:

TB-500 thymosin β -4 is a peptide fragment of a hormone primarily used to treat inflammation. Caused by various muscle injury or pain. There is very little official data on this product; And it has always been the hormone used in horse racing. Although the TB-500 is synthetic, But acts (loosely) as a synthetic form of thymosin β -4 (TB-4). TB- Often confused with TB-4, TB-500 is a naturally occurring thymosin β -4 receptor. A short peptide fragment or fragment of protein (TB-4). T-B500 is a synthetic molecule in the active region of Thymosin β 4. T-B500 can promote endothelial cell differentiation, angiogenesis in dermal tissue, keratinocyte migration, collagen deposition and reduce inflammation.

Product Image:

Application:

The significance of T-B500 to bodybuilders is not only to accelerate damage repair. It can also promote muscle growth, increase endurance, strength and improve muscle tone (this helps maintain muscle display and shape). Increase joint mobility and encourage tissue repair.

Function:

T-B500 is a synthetic molecule in the active region of Thymosin β 4. T-B500 can promote endothelial cell differentiation, angiogenesis in dermal tissue, keratinocyte migration, collagen deposition and reduce inflammation.

1. The use of TB-500 is mostly used to promote healing, especially the healing of body wounds or joint injuries, TB-500 can be used to treat muscle tear or strain, tendon inflammation and even skin injuries.
2. The peptide did not cause immediate healing of the injured area. If the muscle is torn, it is torn, but in many cases use of the TB-500 speeds up the healing process. For chronic injuries, such as joint stress caused by bodybuilders sweating in the gym every day, the TB-500 can be very protective.
3. The effects of TB-500 can also promote hair growth, especially hair loss caused by androgen alopecia.

Package and Shipping of **Raw Polypeptides Thymosin Beta 4 Acetate TB500 for Fitness Use**

Package: 5mg/vial, 10vials/box

Shipping: With 3-5days after your payment

FAQ of of Raw Polypeptides Thymosin Beta 4 Acetate TB500 for Fitness Use

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
