Application:

5-HTP and Bipolar Disorder. Clinical studies have shown the anti-depressant effect of 5HTP supplement for those suffering from bipolar II disorder. 5-HTP can alleviate and reduce to improve the general quality of life of bipolar sufferers.

5-HTP and Fibromyalgia. One of the major benefits of 5-HTP is the help that it gives for people with fibromyalgia. It helps improve sleep while at the same time reduce depression, pain, stiffness and anxiety - all of which are symptoms of this condition.

5-HTP and Headaches. 5-hydroxytryptophan supplement has also been used for treating chronic headaches such as tension headaches, juvenile headaches and migraine. These are conditions which may be related to low serotonin. 5-HTP has the ability to reduce the severity and frequency of these conditions, with fewer side effects compared to other chronic headache medications.

Function:

5-HTP comes from the beans of Griffonia Seed, a vine native to Africa. In African folk medicine, Griffonia Seed is reputed to be

an aphrodisiac, as well as an antibiotic and a remedy for diarrhea, vomiting, and stomachache. Recent research suggests that Griffonia Seed raises serotonin levels in the brain. Serotonin is important in regulating brain chemistry and is especially important in problems such as depression, insomnia, and eating disorders. Theoretically, supplementing with Griffonia Seed can raise serotonin levels and provide relief from depression and insomnia.

Griffonia Seed should also regulate appetite through the increase in serotonin, leading to weight reduction in obese persons, while helping normalize the weight of people suffering from anorexia nervosa. Griffonia Seed has also been used in treating fibromyalgia and chronic headaches in order to reduce pain.
