

99% Purity Raw Powder Clindamycin Phosphate For Antibiotic 24729-96-2

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Clindamycin Phosphate
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: 99% Purity Raw Powder Clindamycin Phosphate For Antibiotic 24729-96-2
- CAS: 24729-96-2
- Certificate: GMP, ISO 9001
- Appearance: White Powder
- Molecular Weight: 504.96
- MOQ: 1kg
- Storage: 2~8 Centigrade
- Shelf Life: 2 YEARS
- Highlight: **99% Purity Clindamycin Phosphate, Antibiotic Clindamycin Phosphate, 24729-96-2 Clindamycin Phosphate**

Product Description

What is 99% Purity Raw Powder Clindamycin Phosphate for Antibiotic 24729-96-2

Basic Information:

Product Name	99% Purity Raw Powder Clindamycin Phosphate for Antibiotic 24729-96-2
CAS	24729-96-2
Purity	99%min
MW	504.96
Storage	Cool and Dry
Deliver Time	Within 3 days After Receiving The Payment
MOQ	1KG

Brief Introduction:

Clindamycin phosphate is a water-soluble ester of the semisynthetic antibiotic produced by a 7 (S)-chloro-substitution of the 7 (R)-hydroxyl group of the parent antibiotic, lincomycin. It is a derivative of lincomycin (a lincosamide). It has primarily bacteriostatic action against Gram-positive aerobes and a wide range of anaerobic bacteria. Doses are expressed in terms of the base: Clindamycin 1g-1.2g clindamycin phosphate.

Usage:

Clindamycin Phosphate (Clindamycin phosphate) It has the similar antimicrobial spectrum, antibacterial activity and treatment effect to clindamycin, it has better fat soluble and permeability than clindamycin, take orally or intramuscular injection and intravenous drip. Compared with lincomycin, the antibacterial action is 4~8 times stronger, and has strong antibacterial activity to gram-positive coccus and anaerobe, the antimicrobial spectrum is: gram-positive coccus include staphylococcus epidermidis, streptococcus, streptococcus pneumoniae, micrococcus, etc.; gram-positive bacillus include clostridium difficile, corynebacterium diphtheriae, etc.; anaerobe include clostridium, bacteroides, fusiformis, propionibacterium, eubacterium, anaerobic cocci, etc.

**Function:**

Clindamycin 2-phosphate is a salt of clindamycin, a semi-synthetic lincosamide. The salt is prepared by selective phosphorylation of the 2-hydroxy moiety of the sugar of clindamycin. The introduction of the phosphate affords improved solubility for injectable formulations. Like other members of the lincosamide family, clindamycin 2-phosphate is a broad spectrum antibiotic with activity against anaerobic bacteria and protozoans. Clindamycin acts by binding to the 23S ribosomal subunit, blocking protein synthesis.

Package and Shipping of 99% Purity Raw Powder Clindamycin Phosphate for Antibiotic 24729-96-2

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 work days after your payment

FAQ of 99% Purity Raw Powder Clindamycin Phosphate for Antibiotic 24729-96-2

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
