

Bodybuilding Raw Powder Peptide CJC1295 With DAC for Muscle Enhancing

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-CJC 1295 With DAC
- Minimum Order Quantity: 1 box
- Price: Negotiable
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Bodybuilding Raw Powder Peptide CJC1295 With DAC For Muscle Enhance
- Specification: 2mg/vial, 10vials/box
- CAS: 863288-34-0
- Appearance: White Powder
- Assay: 99%
- MOQ: One Box
- Highlight: **Pharmaceutical Grade Bodybuilding Peptides, 99% Purity Bodybuilding Peptides, Anti Aging Bodybuilding Peptides**

Product Description

What is Bodybuilding Raw Powder Peptide CJC1295 With DAC for Muscle Enhance

Basic Information Form:

Product Name	Bodybuilding Raw Powder Peptide CJC1295 With DAC for Muscle Enhance
Cas No.	863288-34-0
Assay	99%
Appearance	White powder
Usage	Bodybuilding
Shelf Life	2 years
Condition	Cool Dry Place

Brief Introduction:

CJC1295 is a peptide hormone that mimics the abilities and effects of GRH , a naturally occurring hormone in the human body. CJC1295 is comprised of 29 amino acids that make GRH.

As a growth hormone releasing hormone (GHRH) analog. Not only has CJC-1295 shown the ability to increase growth hormone and IGF-I secretion and its benefits, but it has been able to do so in very large amounts. Recent research studies have shown that CJC - 1295 stimulates GH and IGF-1 Secretion, and will keep a steady increase of HGH and IGF-1 with no increase in prolactin, leading to intense fat loss, and increases protein synthesis.

CJC-1295 is a long-acting GHRH analog and stimulates GH and IGF-1 secretion. It will keep a steady increase of HGH and IGF-1 with no increase in prolactin. [1] CJC-1295 represents a very exciting new compound that has the potential to increase growth hormone and IGF-I secretion and effects, with a built-in safeguard (the feedback effects of IGF-I) to limit excessive elevations of GH and IGF-1 levels. Increases protein synthesis for more muscle growth. GHRHKO animals receiving daily doses of CJC-1295 exhibited normal body weight and length. Mice treated every 48 and 72 h reached higher body weight and length than placebo-treated animals, without full growth normalization.

Product Pictures:

**Application:**

It can elevate IG-1 levels

It can further enhance fat burning when integrated into a cutting cycle

It can further enhance muscle growth when integrated into a bulking cycle

It can help to advance joint and even cellular recovery in regards to everything from the skin to vital organs

It may help to positively impact the immune system

Increased protein synthesis

Faster recovery time

Greater ingestion of protein by the body

An increase in bone density

Function:

Increased growth hormone secretion and IGF-1 Levels with no increase in prolactin

Increased Body Weight and Length through increased protein synthesis

Increased Muscle Growth

Increased Bone Density

Improved Immune Function

Improved Cognition and Memory

Increased Collagen Production

Increased Fat Loss

Increased Cellular Repair and Regeneration

Package and Shipping of Bodybuilding Raw Powder Peptide CJC1295 With DAC for Muscle Enhance

Package: 5mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Bodybuilding Raw Powder Peptide CJC1295 With DAC for Muscle Enhance

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
