

Weight Loss Lyophilized FFTP Adipotide Peptide For Bodybuilding

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-FTPP(Adipotide)
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25kg/ Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Weight Loss Lyophilized Powder FFTP Adipotide Peptide For Bodybuilding
- Appearance: White powder
- MW: 1024.18
- MF: C62h98n16o22
- CAS: 62568-57-4
- Assay: 99.0 %Min
- Specification: 1kg
- MOQ: 1kg
- Origin: China
- Shelf Life: 2 Years
- Highlight: **Lyophilized FFTP Adipotide Peptide ,
Weight Loss FFTP Adipotide Peptide ,
Bodybuilding FFTP Adipotide Peptide**

Product Description

What is Weight Loss Lyophilized Powder FPHP Adipotide Peptide for Bodybuilding?

Basic Information Form:

Product Name	Weight Loss Lyophilized Powder FPHP Adipotide Peptide for Bodybuilding
CAS NO.	62568-57-4
MF	C62h98n16o22
EINECS NO.	unavailable
Purity	99%
Appearance	White dried powder
Place of origin	China
MOQ	1box

Brief Introduction:

Adipotide, a peptidomimetic with sequence CKGGRAKDC-GG-D(KLAKLAK)₂, is an experimental proapoptotic drug that has been shown to cause rapid weight loss in mice and rhesus monkeys. Its mechanism of action is to target specific blood vessels supplying adipose tissue with blood, cause the vessels to shrink and the fat cells fed by those vessels to undergo apoptosis. Adipotide is designed to bind to two receptors, ANXA2 and prohibitin, that are specific to blood vessels supplying white adipose tissue.

Product Image:

Function:

Adipotide is an experimental treatment that prevents the blood supply to fat cells. This has helped obese monkeys to lose on average 11% of their body weight in four weeks, perhaps opening the way for therapy in humans, according to a recent research study. The study, published in the journal *Science Translational Medicine*, shows that body mass index and waist circumference of the rhesus monkeys were reduced.

Application

Based on various Adipotide reviews, the formula is meant to help in weight loss.

It also gives hope to diabetics as it is seen to reduce the side effects of diabetic health conditions.

It contains positive effects on insulin sensitivity whereby it decreases elevated levels of blood glucose.

Adipotide also works without triggering psychological problems as it doesn't affect any neurotransmitter matter.

Adipotide regulates water by removing excess water and retaining it for the required time and purpose.

Adipotide peptide processes hormones which make it helpful in regulating blood pressure

It balances minerals to allow proper functioning of the body organs.

Package and Shipping of Weight Loss Lyophilized Powder FPHP Adipotide Peptide for Bodybuilding

Package:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg:inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5days after your payment

FAQ of Weight Loss Lyophilized Powder FPHP Adipotide Peptide for Bodybuilding

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.
