

Galantamine Hydrobromide Pharmaceutical Powder For Brain Enhancer

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Galantamine Hydrobromide
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Pharmaceutical 99% Raw Powder
Galantamine Hydrobromide For Brain
Enhancer
- CAS No: 69353-21-5
- Appearance: White Powder
- Assay: 99%
- Shelf Life: 24 Months
- Storage: 2-8
- Molecular Formula: $C_{17}H_{21}NO_3.HBr$
- MW: 368.27
- Highlight: **Galantamine Hydrobromide Pharmaceutical Powder**
, Brain Enhancer Galantamine Hydrobromide,
69353-21-5 Galantamine Hydrobromide

Product Description

What is Pharmaceutical 99% Raw Powder Galantamine Hydrobromide for Brain Enhance?

Basic Information:

Product Name	Pharmaceutical 99% Raw Powder Galantamine Hydrobromide for Brain Enhancer
CAS	69353-21-5
Purity	99%
MF	C ₁₇ H ₂₁ NO ₃ .HBr
MW	368.27
Storage	2-8
Deliver Time	Within 3 Days After Receiving The Payment
MOQ	1KG

Brief Introduction:

Galantamine (also called galanthamine, marketed as Reminyl (Janssen)) can be isolated from several plants, including daffodil bulbs, and now synthesized. Galantamine is a specific, competitive, and reversible acetylcholinesterase inhibitor. It is also an allosteric modulator at nicotinic cholinergic receptor sites potentiating cholinergic nicotinic neurotransmission. A small number of early studies showed mild cognitive and global benefits for patients with Alzheimer's disease, and recently several multicentre clinical trials have been published with positive findings. Galantamine has received regulatory approval in Sweden, is available in Austria, and awaits marketing approval in the United States, Europe, and other countries.

Product Image:

Application:

Anesthesiology

use for neurology

Use for ophthalmology

Use for gastroenterology, intensive care and resuscitation, cardiology, physiotherapy

Function:

1. Galantamine hydrobromide powder is weak anticholinesterase drug through the blood-brain barrier, it is the role of the central nervous system.
