

PRL-8053 CAS 51352-87-5 Medicine Supplement White Powder

Our Product Introduction

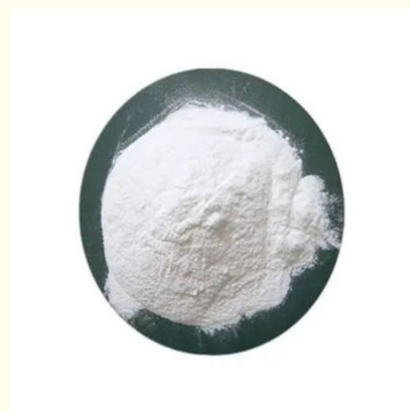

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-PRL-8053
- Minimum Order Quantity: 1KG
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25KG/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 4000kg/Month

Product Specification

- Name: Medicine Grade 99% Supplement White Raw Powder PRL-8053 CAS 51352-87-5
- CAS: 51352-87-5
- Outlook: White Powder
- Assay: 99%
- Shelf Life: 24 Months
- Storage: 2-8
- Molecular Formula: $C_{18}H_{22}ClNO_2$
- MW: 319.82578
- Highlight: CAS 51352-87-5 Medicine Supplement, PRL-8053 Medicine Supplement, $C_{18}H_{22}ClNO_2$ Medicine Supplement

Product Description

What is Medicine Grade 99% Supplement White Raw Powder PRL-8053 CAS 51352-87-5?

Basic Information:

Product Name	Medicine Grade 99% Supplement White Raw Powder PRL-8053 CAS 51352-87-5
CAS	51352-87-5
Purity	99%
MF	C ₁₈ H ₂₂ ClNO ₂
MW	319.82578
Storage	2-8
Deliver Time	Within 3 Days After Receiving The Payment
MOQ	1KG

Brief Introduction:

PRL-8-53 is an experimental compound which many believe to be one of the most effective memory boosters available. Its full name is methyl 3-(2-(benzyl(methyl)amino)ethyl)benzoate.

Researchers found that oral supplementation of PRL-8-53 was able to improve avoidance learning in rats. One human study has also been done on PRL-8-53. Each participant ingested a placebo and PRL-8-53, at separate times, in a double blind crossover study. Participants then took a memory test, consisting of twelve monosyllabic words in a particular order. The test was conducted three times, immediately after supplementation, one day after supplementation, and four days after supplementation.

Application:

PRL-8-53 is a nootropic research chemical derived from benzoic acid and phenylmethanamine (Benzylamine) that has been shown to act as a hypermnesic drug in humans; it was first synthesized by medical chemistry professor Nikolaus Hansl at Creighton University in the 1970s as part of his work on amino ethyl meta benzoic acid esters.

PRL-8-53 is relatively non-toxic, with an oral LD₅₀ in mice of 860 mg/kg, giving the drug a high therapeutic index. Doses above 8 mg/kg have brief hypotensive effects in the canine. High doses depress motor activity in the rat and mouse, with the ED₅₀ for a 50% reduction in motor activity of mice at 160 mg/kg.

Function:

1. Enhance cognition and memory formation
2. Anxiolytic properties
3. Anti-depressive effect
4. Treatment of Alzheimer's and Parkinson's disease
5. Increase coordination

6. Improves mood

7. Help fight fatigue

Package and Shipping of Medicine Grade 99% Supplement White Raw Powder PRL-8053 CAS 51352-87-5

Shipping:

With 3-5 work days after your payment

FAQ of Medicine Grade 99% Supplement White Raw Powder PRL-8053 CAS 51352-87-5

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is 1kg.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
