Brief Introduction:

Nooglutyl is a newer nootropic that offers some outstanding memory retention and recall benefits. The half-life of this nootropic is around 30 minutes to 3 hours. This is perfect for the crammer and the need to retain information fast. Mixing this nootropic with Fasoracetam or Noopept will give you some hours of pure motivation and multi-tasking bliss.

Product Image:

Function:

1. Nooglutyl has glutamatergic effects is a highly active drug in treating disturbances of memory and learning, protecting against ischemic neuronal damage and brain injury. It has been demonstrated to have a stronger effect on glutamate receptors than Noopept.
2. Better for Memory Creation and Retention. Nooglutyl powder has been determined to have effective and potent nootropic properties
