

Cardarine Sarms White Raw Winstrol Powder CAS 10418-03-8

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY- Winstrol
- Minimum Order Quantity: 1kg
- Price: Negotiable
- Packaging Details: Aluminum Bag or 25kg/Fibre Drum
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: 99% Purity Pharmaceutical Grade Sarms Raw Powder Winstrol
- Other Name: Cardarine
- Appearance: White Crystal Powder
- Purity: 99% Min
- Molecular Formula: C₂₁H₃₂N₂O
- Molecular Weight: 328.492
- CAS: 10418-03-8
- MOQ: 1kg
- Highlight: **White Raw Winstrol Powder ,
Sarms Winstrol Powder ,
CAS 10418-03-8 Winstrol Powder**

Product Description

What is 99% Purity Pharmaceutical Grade Sarms Raw Powder Winstrol?

Basic Information form:

Product Name	99% Purity Pharmaceutical Grade Sarms Raw Powder Winstrol
Cas No.	10540-29-1
Assay	99%
Appearance	White powder
MF	$C_{21}H_{32}N_2O$
Shelf Life	2 years
MOQ	1kg

Brief Introduction:

Corlison is also a protein anabolic male steroid (AAS), but is not derived directly from testosterone; first testosterone is derived to DiHydroTestosterone (and DiHydroTestosterone, or DHT) to make an additional modification of the DHT to become Corlison. The chemical modification greatly enhances the anabolic (tissue building) properties of the hormone, minimizes androgen activity, and prevents it from being aromatized into estrogen.

Corylon was first developed as a drug in 1959 by Corylon Throp Laboratories in the United Kingdom. Applying for a US patent in 1961, Conlylon was first listed in 1962 in the US under the trademark "Conlylon Strol". The trademark is much louder than its official name "stanzol" and has been used in this circle to this day, and is simply called Conlylon.

Product Image:

Application:

As a well-known anabolic steroid, Corylon has a loyal following and is safe for both men and women to use as a relatively mild drug to improve performance in a variety of sports, and is often used by bodybuilders for short periods before weight-loss or during precompetition. It is characterized by the ability to increase strength and endurance without increasing circumference.

In addition to improving athletic performance, Corylon has been successful in modern medicine, treating muscle atrophy, osteoporosis, helping patients on chronic cortisol therapy and even promoting the healing of serious fractures. The steroid also plays a role in hormone therapy for obesity and can treat stunted growth in some children. For years, Corylone has also been used to treat neuroedema, angioedema and certain types of breast cancer. The FDA has long permitted the medicinal use of Corylone.

Package and Shipping of 99% Purity Pharmaceutical Grade Sarms Raw Powder Winstrol

Package:

Under 25kg: inner: A PE bag in aluminum foil bag; Outside: carton

Over 25kg: inner: Double PE bags; Outside: 25kg/ fibre drum

Shipping:

With 3-5 days after your payment

FAQ of 99% Purity Pharmaceutical Grade Sarms Raw Powder Winstrol

Q1: Do you Accept Sample Order?
