

CAS 12629-01-5 white powder peptides HBY-gh 191aa for body Building

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GH 191aa
- Minimum Order Quantity: 1kg
- Price: USD 60/box
- Packaging Details: 10iu/vial, 10vials/box
- Delivery Time: About 3 work days after your payment
- Payment Terms: , T/T, Western Union
- Supply Ability: 5000kg/Month

Product Specification

- Product: CAS 12629-01-5 White Powder Peptides HBY-gh 191aa For Body Building
- CAS: CAS 12629-01-5
- Purity: 99%
- Outlook: White Powder
- Standard: Medical Grade
- Specification: 10iu/vial, 10vials/box
- Assay: HPLC 99%
- Molecular Formula: C990H1529N263O299S7
- Transport Package: Vial

Product Description

What is CAS 12629-01-5 Body Building Powder Peptides HBY-gh 191aa?

Infor. Form:

Product Name	CAS 12629-01-5 white powder peptides HBY-gh 191aa for body Building
CAS NO.	CAS 12629-01-5
MF	C990H1529N263O299S7
Purity	99%
Outlook	White powder
origin	China
MOQ	1box

Discription:

Man is the anterior pituitary growth hormone (GH), growth hormone (GH) containing eosinophilic granular secretory cells secrete, consisting of 191 amino acid peptide hormone. This product is in escherichia coli (e.c. with our fabrication: oli) in the composite.

The major role of GH is to stimulate the liver to secrete Insulin-like Growth Factor-I (IGF-I). IGF-I stimulates production of cartilage cells, resulting in bone growth and also plays a key role in muscle protein synthesis and organ growth.

It works to return growth hormone levels to those of a non-growth-hormone-deficient individual. In children, GH can increase growth rate and promote the development of muscle. In adults, it can build muscle, increase energy, and reduce body fat. Stimulate the synthesis of immunoglobulin, lymphoid tissue, macrophages and lymphocyte proliferation, enhance ability to resist infection.
