

## 99% purity white powder gh frag 176-191 peptide for lose fat

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GH Fragment Peptide
- Minimum Order Quantity: 3box
- Price: Negotiable
- Packaging Details: 2mg/vial, 10vials/box; 5mg/vial, 10vials/box; 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 3000kg/Month

#### Product Specification

- Name: 99% Purity White Powder Gh Frag 176-191 Peptide For Lose Fat
- CAS: 221231-10-3
- Assay: 99%
- Appearance: White Powder
- MF: C78H125N23O23S2
- Specification: 2mg/vial, 10vials/box 5mg/vial, 10vials/box 10mg/vial, 10vials/box
- Storage: Peptides Should Be Refrigerated At 4°C Or Below For A Period Of Up To 3 Months. To Prolong The Life Span Of The Peptides They May Be Placed In A Freezer For Up To 12 Months. Once Reconstituted Peptides Should Be Refrigerated/stored At 4°C For Up To 30 Days
- MOQ: 3box

## Product Description

### What is 5mg/vial white powder peptide gh frag 176-191 for lose fat?

#### Basic Information Form:

|                 |                                                                |
|-----------------|----------------------------------------------------------------|

| MOQ             | 3box                                                           |
| Storage         | STable at room Temperature for 90 days. Best stored in freezer |

#### Brief Introduction:

GH Fragment 176-191 has been shown to contribute to lipolysis<sup>[1]</sup> a process that aids in the breakdown and elimination of fat from the body. Growth hormones are produced by the pituitary. The process of making GH Frag 176-191 occurs in the laboratory, where a synthetic version of the Growth Hormone is produced. This is to elevate the levels of GH fragments, which have long been associated with the process of losing fat in the body.

Growth Hormone peptide fragment 176-191, also known as GH Frag 176-191, is a modified form of amino acids 176-191 of the GH polypeptide.

The (gh fragment 176-191) exhibits the ability to burn through stubborn adipose tissue, while increasing energy expenditure, muscle mass, and fat oxidation. All studies have pointed to the fact that the fragment is an effective treatment for obesity and fat loss, and much safer than its GH counterpart.

#### Function :

1. Increase in muscle mass
2. Enhances the lipid content of the body.

#### Product Image:

#### Usage:

The GH fragment 176-191 stimulates lipolysis and inhibits lipogenesis both en vivo/en vitro.

Fragment 176/191 has shown no effect on growth or resistance, unlike the full GH molecule. This is the newest, most powerful GH fragment on the market. Studies have shown sustained fatloss, aimed directly at adipose tissue.

It has been shown that the fat-reducing effects of GH appear to be controlled by a small analog region of the C-terminus end of the GH molecule. This region consists of amino acids 176/191, thus the name. This peptide fragment works by mimicking the way natural GH regulates fat metabolism but without the adverse effects on blood sugar that is seen with unmodified GH.

#### Package and Shipping of 5mg/vial white powder peptide gh frag 176-191

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

#### FAQ of Peptide GH Fragment 176-191 2mg/Vial For Fat Burning CAS 12629-01-5

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
