

5mg Lyophilized Frag Peptide 2mg/Vial 99% Purity For Fat Loss

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-HGH Fragment Peptide
- Minimum Order Quantity: 1box
- Price: Negotiable
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T,
- Supply Ability: 3000kg/Month

Product Specification

- Name: China Supply Lyophilized Frag Peptide Benefits For Fat Loss With 5mg
- CAS: 66004-57-7
- Assay: 99%
- Appearance: White Powder
- MF: C780H123N23O22S2
- Specification: 2mg/vial, 10vials/box
- Storage: 2~8
- MOQ: 1box
- Highlight: **5mg Lyophilized Frag Peptide, Fat Loss Lyophilized Frag Peptide, Frag Peptide 2mg/Vial**

Product Description

What is China Supply Lyophilized frag peptide benefits for Fat Loss with 5mg?

Basic Information Form:

Product Name	China Supply Lyophilized frag peptide benefits for Fat Loss with 5mg
CAS NO.	66004-57-7
MF	C78H123N23O22S2
EINECS NO.	unavailable
Purity	99%
Appearance	White
Place of origin	China
MOQ	1box
Storage	2-8°C

Brief Introduction of lyophilized frag peptide benefits for Fat Loss with 5mg

Fragment (176/191) is a fat loss peptide derived from the GH molecule, which directly initiates lipolysis and inhibits lipogenesis, but in order to better understand this peptide, it is imperative to have at least a rudimentary understanding of its parent hormone.

GH is a polypeptide which contains an amino acid sequence that is 191 amino acids in length. Frag (176 191) was developed by isolating and modifying the specific portion of the GH molecule responsible for the hormone's lipolytic and anti-lipogenic effects.

The portion of the molecule responsible for these effects is amino acids 176/191. In every sense, Frag should primarily be considered a fat loss peptide which performs these functions through the same pathways as traditional GH, but without exposing the user to the potentially undesirable side effects which may present themselves during GH administration.

Product Image of lyophilized frag peptide benefits for Fat Loss with 5mg

Function of lyophilized frag peptide benefits for Fat Loss with 5mg

1. Increase in muscle mass
2. Enhances the lipid content of the body.

Usage of lyophilized frag peptide benefits for Fat Loss with 5mg

The GH fragment 176-191 stimulates lipolysis and inhibits lipogenesis both en vivo/en vitro.

Fragment 176/191 has shown no effect on growth or resistance, unlike the full GH molecule. This is the newest, most powerful GH fragment on the market. Studies have shown sustained fatloss, aimed directly at adipose tissue.

It has been shown that the fat-reducing effects of GH appear to be controlled by a small analog region of the C-terminus end of the GH molecule. This region consists of amino acids 176/191, thus the name. This peptide fragment works by mimicking the way natural hGH regulates fat metabolism but without the adverse effects on blood sugar that is seen with unmodified HGH.

Package and Shipping of lyophilized frag peptide benefits for Fat Loss with 5mg

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of lyophilized frag peptide benefits for Fat Loss with 5mg

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
