CAS NO.	CAS 12629-01-5
MF	C990H1529N263O299S7
Purity	99%
Outlook	White powder
origin	China
MOQ	1box

Discription of peptide hgh 191aa for sale

Human growth hormone is a polypeptide synthesized, stored and secreted by growth hormone cells in the anterior pituitary. HGH is a stress hormone that increases glucose and free fatty acid levels. In bodybuilding, it is widely used for muscle building and weight loss because GH continuously produces the hormones needed for exercise, helping bodybuilders achieve higher levels of muscle growth.

It also stimulates the production of IGF-1. HGH is prescribed medically to treat growth disorders in children and growth hormone deficiency in adults. GH stimulates protein synthesis and increases fat breakdown to provide energy for tissue growth.

It's great for building muscle, losing fat, improving sleep, reducing wrinkles, and growing hair and nails faster. It is also known as Fountain of Youth, a natural human hormone supplement.

We have imported many different products from several different companies. Ally with Shaanxi Hongbaiyi Biotech Co. is the Best! She sent over her quote over to us quickly, which was great since we were running low of a couple products. She followed up with us after the sale and too... [View More](#)
