

High Purity TB500 Peptides Thymosin Beta 4 CAS 77591-33-4

Our Product Introduction

for more products please visit us on peptide-powder.com

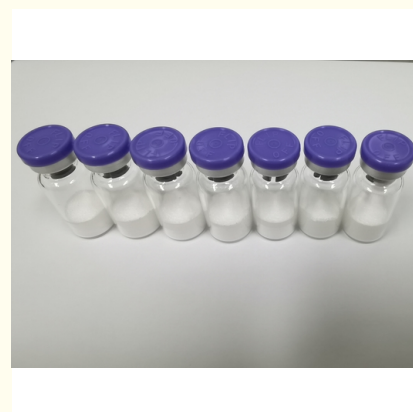

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-TB 500
- Minimum Order Quantity: 5 box
- Price: US\$ 40-70 / box
- Packaging Details: 5mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union, MoneyGram
- Supply Ability: 5000 boxes per month

Product Specification

- Product Name: High Purity TB500
- Purity: 99%
- Molecular Formula: C₂₁₂H₃₅₀N₅₆O₇₈S
- Molecular Weight: 4963.44
- CAS No: 77591-33-4
- Appearance: White Lyophilized Powder
- Storage: Keep In Dark Place, Inert Atmosphere, Store In Freez
- MOQ: 5 Box
- Highlight: **Peptides Thymosin Beta 4, High Purity Thymosin Beta 4, TB500 Thymosin Beta Peptide**

Product Description

High Purity TB500 Peptides Thymosin Beta 4 CAS 77591-33-4

Product Details of tb500 :

Product Name	tb500
Appearance	White powder
CAS	77591-33-4
MF	C212H350N56O78S
Test	HPLC
Assay	99%
MW	4963.44
Storage	Keep in Dark Place, Inert Atmosphere, Store in Freez
Specification	5mg/vial, 10vials/Box

Brief Introduction of tb 500

Tb 500 polypeptide is a 43-amino acid peptide and is considered to be the main G-actin sequester peptide in cells. Extracellular thymosin β 4 may be involved in physiological processes such as angiogenesis, wound healing and inflammation regulation.

Tb 500 peptide is a protein encoded by the TMSB4X gene. Thymosin - β 4 is a major cellular component in many tissues. The intracellular concentration can reach 0.5 mm. β 4 is the second bioactive peptide from thymosin component 5 to be fully sequenced and synthesized after thymosin α 1.

Tb 500 polypeptide is a peptide fragment hormone that is used to treat a variety of muscle injuries or pain caused by inflammation. There is little official data on the product; However, it has always been a hormone used in horse racing. Tb-500, although synthetic, is (loosely) a synthetic form of thymosin β -4 (TB-4). Tb-500 is often confused with TB-4, a short peptide fragment or a naturally occurring thymosin β -4 hormone (TB-4) fragment.

In the event of a performance, provides a lot of good for the world of horse. Recently, some of the world's leading trainers conducted trials on their award-winning male and female horses, and the results dramatically improved their race-day results, which have long been coveted in racing.

Function of tb500:

1. Thymic glands and various local cells in the human body produce thymic β -4(TB-4), which is present in extremely high concentrations in the cytoplasm of wounds. tb500 has a healing part of the TB-4 sequence (refer to the entire end of growth hormone fragment for action extraction), and the main purpose of tb500 is its ability to promote upregulation of cells in the body. Upregulation increases cell sensitivity to action, especially in proteins such as actin. This action helps regulate inflammation in the injured part of the body and provides new access to blood vessels.
2. In the world of anabolic metabolism, tb500 is mostly not used for muscle growth, fat loss, and improved athletic performance. It is mostly used to promote healing, especially for body wounds or joint injuries. Tb-500 can be used to treat muscle tear or strain, tendon inflammation, and even skin injury. The peptide does not cause immediate healing of the injured area. If the muscle tears, it tears, but in many cases using the tb500 speeds up the healing process.
3. tb500 has a very low molecular weight, enabling it to have a high level of mobility in the body. In short, the tb500 can be applied to the whole body, reaching almost any location. The tb500 doesn't have to be applied to the area of injury; its effects can be applied to the whole body, no matter where the injection site is.
4. For chronic injuries, such as stress on the joints caused by bodybuilders working hard in the gym every day, THE TB-500 can provide excellent protection. The effects of TB-500 can also promote hair growth, especially hair loss caused by AAS alopecia, which may be reversed by tb500 use.

FAQ of tb500

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.

Q3: Do you accept VISA business credit card?

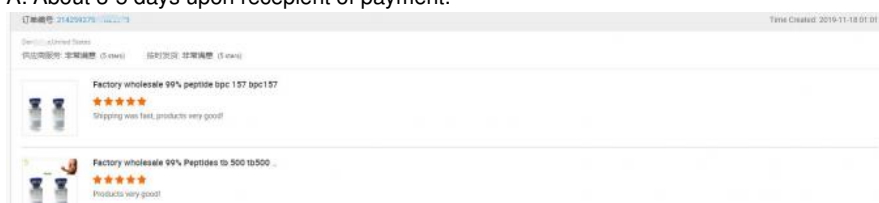

A: Yes. VISA business credit card is in our payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.
