TB-500 / Thymosin Beta 4 is the latest tool in sports pharmaceuticals. The TB-500 course provides an increase in strength, speed and other sports indicators, as well as contributes to the restoration of the musculoskeletal system in the post-traumatic period.

Thymosin Beta 4 is used by representatives of different sports: athletes, bodybuilders, crossfitters, boxers, cyclists. The main effect of the course is to strengthen the musculoskeletal system, increase the strength of ligaments and tendons, and improve joint mobility. In addition, the TB-500 course increases the natural production of LH and, accordingly, due to which an increase in strength indicators is achieved with an increase in aerobic and anaerobic endurance.

Another effect of the TB500 course for athletes is to accelerate recovery from intense training and improve the quality of recovery processes. Fast and complete recovery allows you to increase the volume of the training load and progress at an accelerated pace during periods of work on strength, mass and relief.
