

# 99% Purity Bodybuilding TB 500 Peptide Thymosin CAS 77591-33-

# **Basic Information**

Place of Origin: China
Brand Name: Hongbaiyi
Certification: COA, HPLC MR
Model Number: HBY-TB 500

• Minimum Order Quantity: 5 box

Price: US\$ 35-50 / boxPackaging Details: 2mg/vial, 10vials/Box

Delivery Time: 3~5 days, upon recepient of payment
 Payment Terms: T/T, Western Union, MoneyGram

Supply Ability: 5000 boxes per month

# **Product Specification**

Product Name: Tb 500 ThymosinMolecular Formula: C212H350N56O78S

CAS No: 77591-33-4Molecular Weight: 4963.44

• Storage: Cool Dry Place

Purity: 99%Shelf Life: 2 Years

• Highlight: TB 500 Thymosin Peptide,

Bodybuilding Thymosin Peptide, 99% Purity TB 500 Peptide

# **Product Description**

## 99% Purity Bodybuilding Peptides Tb 500 Thymosin CAS 77591-33-4

#### Product Details of Tb 500 Thymosin:

Product Name	Tb 500 Thymosin
Appearance	White powder
CAS	77591-33-4
Molar Weight	4963.44
Molecular Formula	C212H350N56O78S
Synonyms	Thymosin Beta 4
Shelf Life	2 years
Specification	2mg/vial, 10vials/Box

Thymosin-beta4, better known as TB-500, is an extremely interesting peptide. Due to its extremely fast general and wound healing effect, it is a kind of healing booster for athletes after an injury to be back on the ball as soon as possible, which can be a huge advantage especially in strength training after surgery or the like.

TB-500 is a peptide that can be used to promote healing, increase the range of motion in the event of injury, or relieve pain in the event of injury by reducing inflammation. Until now, the use in humans is not widespread and is currently limited to people who like to experiment. The use in the field of equestrian sports, however, is very common because it is a non-prescription animal drug. It is believed that it is also used by professional athletes, such as footballers, so that they are as soon as possible ready for use again.

Studies demonstrate that TB-500 is a potent, naturally occurring wound repair factor with anti-inflammatory properties. Tß4 is different from other repair factors, such as growth factors, in that it promotes endothelial and keratinocyte migration. It also does not bind to the extracellular matrix and has a very low molecular weight meaning it can travel relatively long distances through tissues. One of TB-500 key mechanisms of action is its ability to regulate the cell-building protein, Actin, a vital component of cell structure and movement. Of the thousands of proteins present in cells, actin represents up to 10% of the total proteins which therefore plays a major role in the genetic makeup of the cell.

# **Product Photos of Tb 500 Thymosin:**

## Function of Tb 500 Thymosin:

- 1.Accelerates the recovery of muscles (including heart muscle), ligaments, joints and skin. It has a pronounced reparative potential for many tissues.
- 2.Anti-inflammatory action
- 3. Protects and restores the nervous system.
- 4. Increases tissue sensitivity to the anabolic hormone insulin
- 5. Increases joint mobility and ligament extensibility.
- 6. Stimulates the secretion of luteinizing hormone.
- 7. Angiogenesis the growth of new vessels in the muscles, which improves their nutrition
- 8.Cardioprotector and reduces the risk of myocardial infarction, restores the myocardium. Has a regenerative property even with myocardial ischemia.

## FAQ of Tb 500 Thymosin:

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

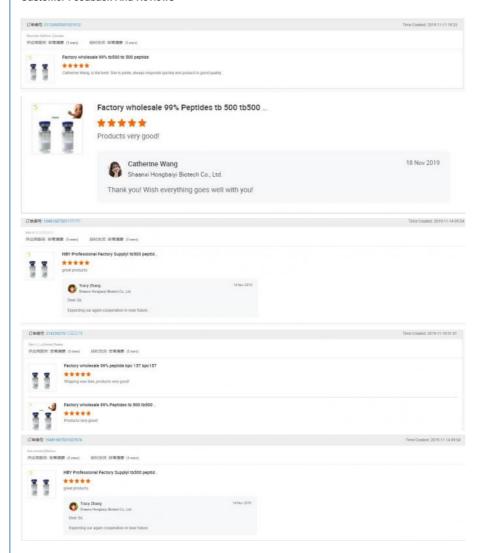

Q4: How long does it take to me if I order?

A: About 3-5 days upon recepient of payment.

Q5: What kind of transportation do you have?

 $\hbox{A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.}\\$
