

99% Purity GH Fragment Peptide 176-191 10mg/Vial For Weight Loss

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GH Frag176-191
- Minimum Order Quantity: 1box
- Price: US\$ 119-139/ box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Gh Frag 176-191
- CAS: 863288-34
- MF: C78H123N23O23S2
- MW: 1817.1
- Appearance: White powder
- Specification: 10mg/vial, 10vials/box; 2mg/vial, 10vials/box; 5mg/vial, 10vials/box
- Condition: 2-8
- Highlight: **99% Purity HGH Fragment Peptide, Weight Loss Hgh Frag 176 191, Growth Hormone Fragment Hgh Peptides**

Product Description

99% Purity gh Frag 176-191 10mg/vial For Weight Loss

Basic Information Form gh frag 176-191

Product Name	gh frag 176-191
Cas No.	863288-34
Peptide Purity	99%
Appearance	White powder
Molecular Formula	C78H123N23O23S2
Molecular Weight	1817.1
Shelf Life	2 years
Storage	2-8

Brief Introduction of gh frag 176-191

The GH fragment (176-191) is a synthetic peptide that represents the short specific portion of the amino acid chain of GH (amino acids at positions 176-191 at the C-terminus of the gh). Just this fragment of GH is responsible for its strong fat burning properties, but does not have strong impact on insulin levels as GH does. Clinical trials confirms, in both humans also animals, GH Fragment leads to lipolysis (breakdown of fat) and inhibits lipogenesis, wherein, the GH fragment can be up to 12.5 times more potent than GH for fat burning. GH fragment 176-191 mimics the way natural gh regulates the breaking down of fat, but without the unwanted side effects on blood sugar, insulin level or cell proliferation.

GH Fragment 176-191 has been researched mainly in animal models. While it preserves the fat-burning effects of GH, it avoids some other effects of its parent protein such as increasing IGF-1 levels, negatively impacting carbohydrate metabolism, altering insulin sensitivity, or increasing long bone growth.

Scientific clinical study published in 2013 in the Journal of Endocrinology and Metabolism evaluated 6 trials of GH Fragment 176-191 to assess the rate and significance of possible negative effects associated with GH Fragment. Results was that administration of GH Fragment 176-191 (when compared to placebo) did not cause any changes in glucose levels, glucose tolerance, insulin sensitivity or IGF-1 levels. This suggests that GH fragment 176-191 offers several benefits of GH but without the associated its possible negative side effects.

Similar to unmodified GH, this truncated form of gh helps with fat metabolism and inhibits the creation of fatty acids and other lipids in the body. But, GH Fragment directly affects the adipose tissue, specifically the adipose fat cells, and increases lipolytic action. Thanks to this, fat metabolism runs faster and stronger than in the case of GH, and GH Fragment 176-191 seems to be more suitable option for fat burning and obesity treatment than regular gh.

Function & Usage of gh frag 176-191

- 1.Strong fat burning properties without any side effects
- 2.Stimulates lipolysis and inhibits lipogenesis
- 3.Does not cause changes in glucose levels & tolerance, insulin sensitivity or IGF-1 levels
- 4.GH-Fragment can be up to 12.5 fold more potent than GH for fat burning
- 5.Is more suitable option for fat burning and obesity treatment than regular GH
- 6.Increases energy levels

Package and Shipping of gh frag 176-191

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of gh frag 176-191

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
