

99% Purity 0.1Mg/Vial Body Building Peptides Igf 1 Lr

3

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBV-Igf 1 Lr 3
- Minimum Order Quantity: 5box
- Price: US\$ 38-58/ box
- Packaging Details: 0.1mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Igf 1 Lr 3
- Molecular Formula: C400H625N111O115S9
- CAS: 946870-92-4
- Molecular Weight: 9117.6
- Appearance: White Powder
- Other Names: Long R3-IGF-1; IGF-1 Long R3
- Specification: 0.1mg/vial, 10vials/box
- Storage: 2-8
- Highlight: **Body Building Injectable Peptides, Body Building Peptide Powder, Igf 1 Lr3 Muscle Growth Peptides**

Product Description

Our Product Introduction

Buy 99% Purity 0.1Mg/Vial Bodybuilding Peptide IGF 1 Lr 3

Basic Information Form Of IGF 1 Lr 3

Product Name	IGF 1 Lr 3
Cas No	946870-92-4
Molecular Formula	C400H625N111O115S9
Molecular Weight	9117.6
Storage	2-8
Appearance	White powder
Peptide Purity	99%
synonym	Long R3-IGF-1; IGF-1 Long R3
Shelf Life	2 years

What is IGF 1 Lr 3

IGF1-LR3 is a breakthrough peptide that has shown great results without many of the side effects or risks of other more commonly prescribed fat loss medications. IGF-1 LR3 inhibits the movement of glucose into the body's cells which facilitates fat burning and the use of fat in the body for the production of energy. Its effects last most of the day and have made it a preferred variant by a majority of patients and physicians. When IGF-1 LR3 is active in the body, it functions differently in different types of tissues. For instance, in muscle tissue, it makes the muscle more sensitive to insulin's effects, such as a reduction in fat storage.

IGF-1 Long R3, or IGF-1 LR3, is a form of IGF that has been chemically altered with changed amino acids. It consists of 83 amino acids with a substitution of Arg(R) for the Glu(E) at position three, hence, the name R3. The alterations enable it to avoid binding to proteins in the body, which allows it to have a longer half-life.

IGF-1 LR3 is more potent than the regular IGF-1 because of the decreased binding of Long R3 IGF-1 to IGF binding proteins. Its main purpose is to increase the biological activity of IGF.

Essentially, when IGF-1 LR3 is active in the body, it functions differently in different types of tissues. For instance, in muscle tissue, it makes the muscle more sensitive to insulin's effects, such as a reduction in fat storage. But while IGF-1 LR3 helps fat reduction, a person using it will experience weight gain because of the increase in pure-muscle weight.

Effects of Igf 1 Lr 3

1. Overall regeneration of the whole body (incl. internal organs), increased cellular repair
2. Anti-aging effects, rejuvenation and the ability to slow-down the aging
3. Increased collagen production, healthier skin, helping to smooth out wrinkles
4. Strong anabolic effect / promoting muscle growth, strength and performance
5. Ability to induce muscle hyperplasia – the growth of new muscle cells
6. Strong anti-catabolic effect / protection against muscle wasting
7. Increased bone mineral content / greater bone mineral density
8. Improved cognitive functions, improves learning and memory
9. Promotes regeneration of the nervous system and brain health
10. May reduce risk of heart & cardio-vascular diseases
11. Strengthened immune system

Package and Shipping of Igf 1 Lr 3

Package: 0.1mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Igf 1 Lr 3

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
