

CAS 946870-92-4 Body Building Peptides Igf 1 Lr3 99% Purity

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Igf1 Lr3
- Minimum Order Quantity: 5box
- Price: US\$ 138-168/ box
- Packaging Details: 1mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Igf 1 Lr3 Buy
- Molecular Formula: C400H625N111O115S9
- Molecular Weight: 9117.6
- CAS: 946870-92-4
- Synonyms: Long R3-IGF-1; IGF-1 Long R3
- Storage: 2-8
- Appearance: White Powder
- Highlight: **Igf 1 Lr3 Body Building Peptides, 99% Purity 1 Lr3 Peptide, CAS 946870-92-4 Body Building Peptides**

Product Description

99% Purity CAS 946870-92-4 BodyBuilding Peptide Igf 1 Lr3 Buy

Basic Information Form Of Igf 1 Lr3 Buy

Product Name	Igf Lr3 Buy
Cas No.	946870-92-4
MF	C400H625N111O115S9
MW	9117.6
Synonyms	Long R3-IGF-1; IGF-1 Long R3
Peptide Purity	99%
Storage	2-8
Shelf Life	2 years

Product introduction of Igf 1 Lr3 Buy

IGF1 LR3 allows for many of the growth-promoting effects of growth hormone insulin-like growth factors also know as IGF's. IGF-1 LR3 comprises a family of peptides (protiens) that play important roles in mammalian growth and development.

IGF1 LR3 is also known as Long R3 IGF-1 or Insulin-Like Growth Factor-I Long Arg3. The Long R3 IGF-1 version is significantly more potent than regular IGF-1. The enhanced potency is due to the decreased binding of IGF1 LR3 to all known IGF binding proteins. These binding proteins normally inhibit the biological actions of IGF's therefore IG-1 LR3 has been shown to have increased efficacy and function .This IGF-1 LR3 analog of IGF-1 has been created with the purpose of increasing the biological activity of the IGF peptide.

IGF1 LR3 is also known as Long R3 IGF-1 or Insulin-Like Growth Factor-I Long Arg3. This is a human recombinant, single, non-glycosylated, polypeptide chain containing 83 amino acids and having a molecular mass of 9200 Daltons. IGF1 mediates many of the growth-promoting effects of growth hormone (GH; MIM 139250).

The LR3 is a long-term analog of human IGF-1, specifically designed and manufactured for mammalian cell culture to support large-scale manufacturing of recombinant biopharmaceuticals. Early studies showed that growth hormone did not directly stimulate the incorporation of sulfate into cartilage, but rather acted through a serum factor, termed 'sulfation factor,' which later became known as 'somatomedin'.

Functions of Igf 1 Lr3 Buy

Ability to induce muscle hyperplasia – the growth of new muscle cells
Strong anti-catabolic effect / protection against muscle wasting
Increased bone mineral content / greater bone mineral density
Improved cognitive functions, improves learning and memory
Promotes regeneration of the nervous system and brain health
May reduce risk of heart & cardio-vascular diseases
Strengthened immune system
Anti-inflammatory effects
Improved gut health

Package and Shipping of Igf 1 Lr3 Buy

Package: 1mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Igf 1 Lr3 Buy

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
