

CAS 137525-51-0 Human Growth Peptides BPC 157 5Mg 99% Purity

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-BPC-157
- Minimum Order Quantity: 5 Box
- Price: US\$ 49-69/ box
- Packaging Details: 5mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: Western Union, T/T, MoneyGram
- Supply Ability: 3000kg/Month

Product Specification

- Name: BPC 157 5Mg
- CAS: 137525-51-0
- Molecular Formula: C62H98N16N22
- Appearance: White Powder
- Specification: 5mg/vial, 10vials/box
- Storage: 2~8
- Shelf Life: 2 Years
- Highlight: **99% Purity BPC 157 Peptide, 5Mg Human Growth Peptides, Growth Hormone Peptide BPC 157**

Product Description

Buy 99% Purity Human CAS 137525-51-0 Growth Peptide BPC 157 5Mg

Basic Information Form Of BPC 157 5Mg

Product Name	BPC 157 5Mg
Cas No.	137525-51-0
MF	C62H98N16N22
MW	1419.556
Appearance	White powder
Purity	99%
Shelf Life	2 years

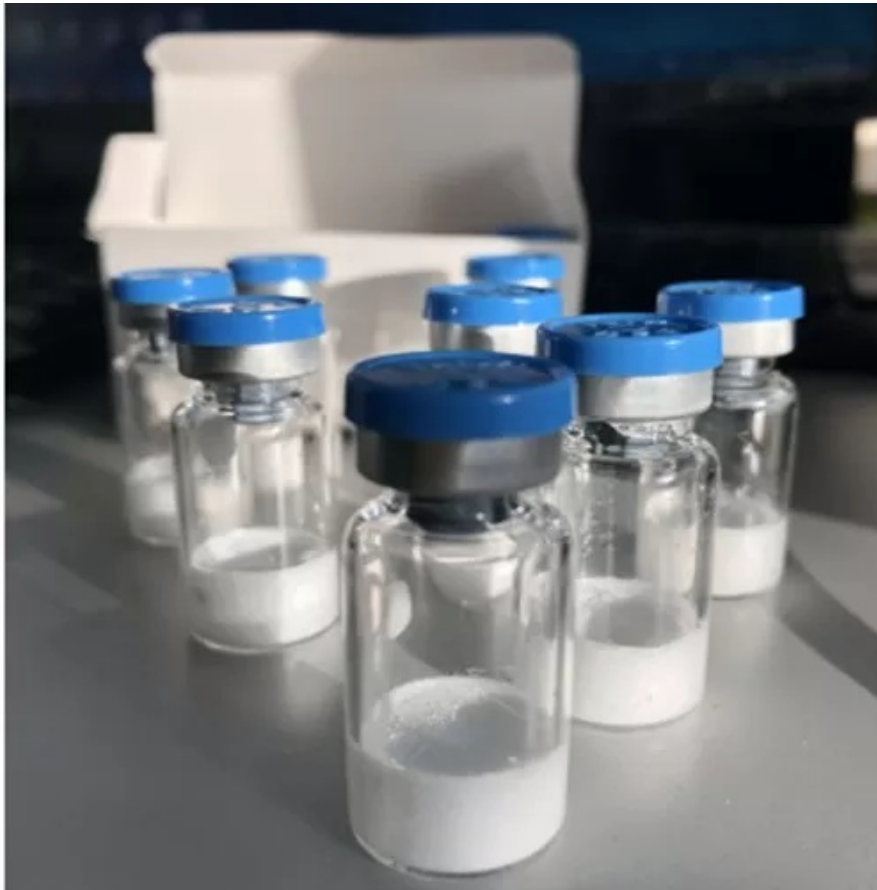

What is BPC 157 5Mg

BPC-157, which stands for Body Protection Compound 157, is a peptide chain that consists of 15 amino acids. Since such a sequence doesn't exist in nature, the compound is considered synthetic. However, it is based on a protective compound that is present in the human stomach. Numerous studies and lab research experiments conducted on rodents have shown that BPC-157 can have a variety of therapeutic and physical effects.

BPC-157 works by triggering the formation of new blood vessels, a process that is called angiogenesis. Such activity promotes healing and induces faster regeneration of cells. It also works by blocking or preventing the growth-inhibiting effects of a molecule named 4-hydroxynonenal.

So, when you buy BPC-157, it will stimulate the tendon cells to make even more receptors for the growth molecules, which will, in turn, induce them to grow and move during injury repair.

Benefits Of BPC 157 5Mg

1. Accelerates Wound Healing

BPC-157 is primarily known for its ability to heal the body. In fact, it has been scientifically proven to promote the healing of different tissues, including skin, muscle, bone, ligament, and tendon. This is due to the peptide's ability to activate the body's growth hormone receptors and increase blood flow to the injured area. Because of its many healing properties, BPC-157 is particularly beneficial for athletes, as well as the average person who suffers from past injuries or chronic pain.

2. Reduces Inflammation in the Body

Inflammation is the body's way of protecting itself from invaders, such as viruses and diseases. However, too much inflammation can have a myriad of adverse health effects. Fatigue, joint pain, stomach issues, and anxiety are all symptoms of chronic inflammation that may negatively affect your quality of life. Furthermore, chronic inflammation increases one's risk of developing cancer, heart disease, diabetes, and Alzheimer's in the future.

BPC-157 peptide therapy's anti-inflammatory effects on the body are able to reduce one's risks of developing diseases linked to inflammation. Additional benefits of reducing inflammation in the body include increased energy and vitality, improved mental health, and stronger immunity.

3. Improves Digestion and Gut Health

Gut health plays an important role in all functions of the body. In fact, poor gut health can lead to fatigue, allergies, mood swings, migraines, and so on. There are many causes of poor gut health, including alcohol abuse, antibiotic use, stress, sugary foods, and frequent use of NSAIDs, such as ibuprofen.

Luckily, BPC-157 is able to help repair the lining of the gut and reduce swelling to help treat gastrointestinal conditions linked to poor gut health. The peptide can be especially helpful for those suffering from leaky gut syndrome, Crohn's disease, or irritable bowel syndrome. Studies have also shown that BPC-157 is able to reverse the damaging effects of NSAIDs on the gut.

4. Promotes Brain Health

The healing effects of BPC-157 also reach the brain due to its ability to repair brain tissue and neurons. In fact, a scientific study has shown that BPC-157 can even counteract traumatic brain injuries, as well as help treat other various central nervous system disorders. Additionally, the peptide may be able to mitigate seizures, brain lesions, and hypoglycemia side effects.

5. Improves Mood

In addition to its brain-healing effects, BPC-157 can boost serotonin production, which is the hormone that regulates mood and happiness. As a result, BPC-157 peptide therapy has been shown to have many antidepressant and stress-relieving effects. Therefore, if you are someone who frequently struggles with depression or anxiety, BPC-157 peptide therapy may be able to raise your serotonin levels and relieve your symptoms.

Package and Shipping Of BPC 157 5Mg

Package: 5mg/vial, 10vials/box

Shipping: With 3-5days after your payment

FAQ Of BPC 157 5Mg

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
