

99% Purity 10Mg Human Growth Peptides PT 141 For Women

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-PT 141
- Minimum Order Quantity: 5 BOX
- Price: US\$ 49-68 / box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Name: Pt 141 For Women
- CAS No.: 189691-06-3
- Molecular Formula: C50H68N14O10
- Molecular Weight: 1025.2
- Purity: 99%
- Aspect: White, Powder
- Storage: 2~8
- Highlight: Human Growth PT 141 Peptides,
Women Human Growth Peptides 10Mg

Product Description

Factory Price 99% Purity 10Mg Human Growth Peptide Pt 141 For Women

Basic Information form of Pt 141 For Women

Product Name	Pt 141 For Women
Cas No.	189691-06-3
Purity	99%
Aspect	White powder
Molecular Formula	C50H68N14O10
Store	2~8 centigrade
Shelf Life	2 Years

What is Pt 141 For Women

PT-141 is the prior developmental code given name for Bremelanotide. This is a peptide originally developed as a sunless tanning agent. It is a melanocyte-stimulating hormone (MSH) that affects sexual arousal, aiding enhanced libido levels and penile erections. Unlike Viagra or Cialis, PT-141 is not a PDES inhibitor, and it does not target the vascular system. Instead, it acts on the nervous system via activation of neurons in the hypothalamus to increase sexual desire.

Another exciting feature of this medication is that it is effective for women as well. Many women suffer from hypoactive sexual desire disorder (HSDD). This is characterized by a lack or absence of sexual fantasies or desire for sexual activity in the absence of a diagnosed psychological disorder or a bad relationship. PT- 141 has proven to be effective for women. A 2016 study found that taking PT- 141 over 12 weeks increased the number of sexually satisfying events (SSE) in pre-menopausal women who suffered from hypoactive sexual arousal disorder (HSDD) and female sexual arousal disorder (FSAD). Participants also had an increase in their female sexual function index (FSFI) and orgasm score total with no adverse effects.
