

CAS 158861-67-7 Pralmorelin GHRP 2 Peptide 10 Mg/Vial 99% Purity

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-GHRP 2
- Minimum Order Quantity: 5 box
- Price: US\$ 39-50 / box
- Packaging Details: 10mg/vial, 10vials/Box
- Delivery Time: 3~5 days, upon receipt of payment
- Payment Terms: T/T, Western Union,
- Supply Ability: 5000 boxes per month

Product Specification

- Product Name: Pralmorelin
- CAS No: 158861-67-7
- Molecular Formula: C42H50N8O5
- Molecular Weight: 746.897
- Storage: 2~8 Centigrade
- Appearance: White Powder
- Shelf Life: 2 Years, When Proper Storage
- Highlight: **Pralmorelin GHRP 2 peptide 10mg vial, Pralmorelin peptide 99% purity, GHRP 2 peptide with warranty**

Product Description

Buy 99% Purity CAS No 158861-67-7 10 Mg/vial Pralmorelin GHRP 2

Product Details Of Pralmorelin :

Product Name	Pralmorelin
Appearance	White powder
CAS	87616-84-0
Purity	99%
Specification	10mg/vial, 10vials/Box
Molecular Formula	C ₄₆ H ₅₆ N ₁₂ O ₆
Molecular Weight	746.897

What Is Pralmorelin?

The Pralmorelin is also known as GHRP-2 or Growth hormone-releasing peptide 2, GHRP-2 (Growth Hormone Releasing Peptide-2 and Somatotropin) is a growth hormone (somatotropin) stimulator which demonstrated high efficiency associated with sublingual and transbuccal administration in humans. GHRP-2 is probably the most potent booster (stimulator) of somatotropin secretion. GHRP-2 is an oligopeptide which can bypass liver by passing to blood flow through oral cavity blood vessels. According to studies, GHRP-2 stimulates pituitary gland inducing increase in somatotropin secretion by 7-15 times. At the same time, other GABA- and amino acid-based growth hormone stimulators raise this level not more than 2-3 times higher than baseline.

Growth Hormone Releasing Peptide-2 consists of 6 sequentially connected amino acids. The growth hormone stimulator is included in peptide group interacting with G protein-coupled hypothalamic and pituitary receptors. For the first time these peptides were derived from met-enkephalin (synthetic peptide) at the end of the last century. Although GHRP-2 has no structural similarity with somatotropin-releasing hormone (endogenic biologically active substance naturally inducing growth hormone secretion), it demonstrated similar pituitary effects during clinical trials.

As GHRP-2 has low molecular weight, it easily penetrates through well-vascularized mucosa of oral cavity providing means for avoiding parenteral administration. Efficiency and good tolerance of sublingual, intranasal and transbuccal administration methods are confirmed by medical trials.

Benefits Of Pralmorelin

- 1.Growth Hormone Secretion Stimulation.
- 2.Fat Mass Reduction And Muscle Gains (Improved Muscle Definition).
- 3.Reduction in Cholesterol Level.
- 4.Stronger Bones.
- 5.Improved Skin Properties (Rejuvenating Effect).
- 6.Hepatic Protection.
- 7.Anti-Inflammatory Action.

FAQ Of Pralmorelin

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q3: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
