

CAS 170851-70-4 Natural Body Building Peptides Ipamorelin 10mg

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Ipamorelin
- Minimum Order Quantity: 5box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Ipamorelin 10mg
- CAS No.: 170851-70-4
- MF: C38H49N9O5
- MW: 711.86
- Facade: White Powder
- Sotrage: Cool Dry Place
- Purity: 99%
- Highlight: **Body Building Peptides Ipamorelin 10mg, 170851-70-4 Ipamorelin 10mg, Ipamorelin 10mg Body Building**

Product Description

CAS 170851-70-4 Natural Bodybuilding Peptide Ipamorelin 10mg

Basic Information Form of Ipamorelin 10mg

Product Name	Ipamorelin 10mg
CAS No.	170851-70-4
Fineness	99%
MF	C38H49N9O5
MW	711.86
Appearance	White powder
Specification	10mg/vial, 10vials/box
Storage	Cool Dry Place

what is Ipamorelin 10mg

Ipamorelin is a fascinating new muscle building discovery that is getting a lot of attention in the bodybuilding world. Like the GHRP-6 peptide (growth hormone releasing hexapeptide), it is a synthetic peptide that has powerful Growth Hormone releasing properties. And these GH releasing properties are what is of interest to athletes and bodybuilders since they can make a tremendous difference in the amount of muscle you can grow and how quickly you burn fat.

Ipamorelin has been shown to be both highly potent and very selective in vivo and vitro situations, and has also demonstrated good safety and tolerability in human clinical studies.

Research has shown that Ipamorelin is hormone specific which means that the pituitary hormones such as cortisol are unaffected. In one study, it was found that young female adult rats had increased bone mass due to 12 weeks of treatment with ipamorelin. This peptide compared to other Hormone Releasing Peptides ensures the benefits without having to deal with possible negative side effects.

Ipamorelin in theory may increase Acetylcholine or Cortisol when used in higher dosages. However, and increase in Acetylcholine or Cortisol is even more likely with GHRP-2 and GHRP-6. In fact, in the case of Ipamorelin, there was little to no rise in Acetylcholine and Cortisol blood plasma levels even at injections more than 200 times higher than the effective dosage for comparable GH release.

This clearly proves that Ipamorelin is the first successful GHRP receptor agonist or chemical that binds to a receptor of a cell and triggers a response by that cell with a specific selectivity for the promotion of GH release by itself.

Another advantage to Ipamorelin is that it doesn't cause sudden spikes in prolactin or cortisol as does GHRP-2 and GHRP-6. Ipamorelin is slower in its delivery unlike GHRP's which spike GH levels at a more rapid rate. The slower release is more natural and has a more sustained effect.

Benefits of Ipamorelin 10mg

- Improved sex drive
- Strengthened cardiovascular system
- Improved quality of sleep
- Improved energy and endurance
- Aid in the body's ability to burn fat
- Helps improve lean muscle mass
- Supports immune system
- Supports bone density
- Improved skin firmness and moisture retention

Package and Shipping of Ipamorelin 10mg

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of of Ipamorelin 10mg

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
