

High Purity GHRP Hexarelin Peptide 2mg / Vial For Bodybuilder

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Hexarelin
- Minimum Order Quantity: 5box
- Price: US\$ 36-41/ box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 4000kg/Month

Product Specification

- Product Name: Hexarelin Peptide
- CAS NO.: 140703-51-1
- MF: C47H58N12O6
- MW: 887.0
- Compound: His-2-Me-D-Trp-Ala-Trp-D-Phe-Lys-NH2
- Appearance: White Powder
- Peptide Purity: 99%
- Shelf Life: 2 Years
- Highlight: **GHRP Hexarelin Peptide,
Hexarelin Peptide 2mg / Vial,
Hexarelin Peptide For Bodybuilder**

Product Description

High Purity GHRP Hexarelin Peptide 2mg/vial For Bodybuilder

Basic Information Form of Hexarelin Peptide

Product Name	Hexarelin Peptide
MF	C47H58N12O6
Cas No	140703-51-1
Appearance	White Powder
Purity	99%
MW	887.0
Shelf Life	2 years
Synonyms	Hexarelin Acetate, Examorelin

What Is Hexarelin Peptide

Hexarelin Acetate, also alternatively known as examorelin, is a small synthetic peptide that belongs to the growth hormone secretagogue class (GHS) (1,2).

It is composed of just six amino acids. The chemical sequence of this growth hormone-releasing peptide (GHRP) is His-D-2-methyl-Trp-Ala-Trp-D-Phe-Lys-NH₂. Being highly compact in structure makes it more stable as well as effective in terms of its functioning in the body.

How Does Hexarelin Work

The primary function of hexarelin is to trigger the release of growth hormone from the anterior pituitary gland. Hexarelin follows multiple courses of action to achieve this purpose.

Hexarelin mimics the action of a naturally occurring hormone called ghrelin. Ghrelin is mainly synthesized in the stomach, and it travels via the bloodstream to bind with the growth hormone secretagogue receptor (GHS-R1a) located in the hippocampus.

This subsequent binding stimulates a wide array of physiological pathways such as the release of growth hormone (GH), protecting cardiomyocytes, regulating body weight, and developing the musculoskeletal system.

Hexarelin also binds with growth hormone secretagogue receptor (GHS-R1a) (3) similar to ghrelin to initiate a phospholipid-dependent protein kinase (PKC) signaling pathway (1). This leads to the amplified release of growth hormone (GH) due to the coordinated action of the hypothalamus as well as the pituitary gland.

Hexarelin is also known to limit the release of somatostatin, also sometimes referred to as growth hormone-inhibiting hormone (GHIH). This leads to higher serum levels of growth hormone (GH).

The availability of growth hormone secretagogue receptor (GHS-R1a) in the peripheral organs like the heart, bones, adrenal gland, and digestive tract means that hexarelin can also trigger a localized effect. Particularly, the binding of hexarelin with cardiac receptors called CD36 (3) is a growing area of research.

Hexarelin stimulates other endocrine pathways such as ACTH to cause the release of prolactin as well as cortisol.

Benefits Of Hexarelin Peptide

There are several benefits to using Hexarelin in your workout regimen. For bodybuilders and fitness gurus the most common use it to gain muscle and enhance body strength. However, that is more in the realm of bulking. When it comes to cutting, Hexarelin can help because of its ability to aid in fat burning.

If that isn't enough. Hexarelin is useful for things other than its capabilities with bulking and cutting. It is also useful in the treatment of injury. What do we mean by this? Simple, Hexarelin speeds up joint and muscle recovery. Therefore, that injury that's keeping you out of the gym doesn't stand a chance.

The best part about this peptide therapy is that it is not like anabolic steroids. In other words, you won't experience the same damaging side effects associated with steroids.

Improves Joint & Muscle Healing
Enhances Strength
Improves Muscle Gain
Cardiovascular Benefits
Fat Burning Capabilities

Package and Shipping of Hexarelin Peptide

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Hexarelin Peptide

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q3: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines,TNT, FEDEX, EMS, ect.
