Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan II
- Minimum Order Quantity: 5 box
- Price: US\$ 45-53 /box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Product Name: Melanotan 2 For Sale
- CAS No.: 121062-08-6
- MF: C50H69N15O9
- MW: 1024.2
- Purity: 99%min
- Appearance: White Powder
- Shelf Life: 2 Years
- Highlight: **99% Purity Melanotan 2 Peptides, Melanotan 2 Peptides 10Mg, 10Mg / Vial Human Growth Peptides**

Product Description

99% Purity 10Mg/Vial Human Growth Peptides Melanotan 2 For Sale

Basic Information Form of Melanotan 2 For Sale

Product Name	Melanotan 2 For Sale
CAS NO.	121062-08-6
Purity	99%
MW	1024.2
MF	C50H69N15O9
Appearance	White Powder
Store	Cool Dry Place
MOQ	5box

What Is Melanotan 2 For Sale

Don't be surprised. A lot of people haven't heard of Melanotan. Melanotan is a tanning peptide that stimulates the production of melanin in the body to foster a deep, natural tan. This is the body's way of protecting itself from too much sun exposure by increasing the level of melanin in the body. Melanin is your body's natural response to UV damage. The end result is a darkening of the skin. Obviously, the drawback from too much tanning is the amount of damage UV radiation can do. This can lead to skin cancer and other serious health problems.

How does it work?

Melanotan 2 works by stimulating the release of the pigment melanin from the skin. Less UV exposure is necessary with Melanotan 2 compared to "normal tanning", and the tan that occurs with tanning injections is deeper and longer lasting than an individual's "normal tan". Melanotan works best (has the most noticeable effects) on people with fair skin tones.

Application of Melanotan 2 For Sale

If you look hard enough out there, you will find some weird and wonderful dosaging schedules whereby the user calculates their daily dosage by multiplying their bodyweight by a cofactor. Perhaps this approach has been adopted since this has been the method employed in the ongoing clinical studies. Typically, this type of formula would suggest a dose of 1mg of MT-II per day for someone weighing in at a mere 110lb (50kg). The cynical among us might be forgiven for thinking that these formulae are constructed by those with a personal interest in the sale of the product as I believe this to be more than necessary to achieve a great result. Indeed, there are many instances whereby users feel they have become too dark.

While I have no problem with a bodyweight dosage scale in principle, I can't help thinking that it's not only unnecessary (particularly for the mathematically challenged), but also avoids the ability to gradually increase dosages from a relatively low level; something which I would advocate to assess individual tolerance levels to side effects, especially in the case of MT-II.

Package and Shipping of Melanotan 2 For Sale

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Melanotan 2 For Sale

Q1: Do you Accept Sample Order?
