

## 10Mg 99% Mt2 Melanotan2 Melanotanii Peptides Powder

Our Product Introduction

for more products please visit us on [peptide-powder.com](http://peptide-powder.com)

### Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan 2
- Minimum Order Quantity: 5 box
- Price: US\$ 46-53 /box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

### Product Specification

- Name: Melanotan 2
- Molecular Weight: 1024.2
- Molecular Formula: C50H69N15O9
- CAS No.: 121062-08-6
- Purity: 99%
- Colour: White
- Shelf Life: 2 Years
- Highlight: **10Mg 99% Mt2, 10Mg 99% Melanotan2, 10Mg Melanotanii Peptides Powder**

## Product Description

Our Product Introduction

**10Mg 99% Mt2 /Melanotan2 /Melanotan 2/Melanotan II /Melanotanii Peptides Powder**  
**Basic Information Form of Melanotan 2**

Peptide Name	Melanotan 2
CAS NO.	121062-08-6
Peptide Purity	99%
Molecular weight	1024.2
Molecular Formula	C50H69N15O9
Appearance	White Powder
Store	Cool Dry Place
MOQ	5box

### What Is Melanotan 2

Melanotan II is a synthetic analogue of the naturally occurring melanocortin peptide hormone  $\alpha$ -melanocyte-stimulating hormone. Melanotan II was first developed in the U.S. with the intent of creating a peptide that could lower the risk for skin cancer.

Trials succeeded and researchers found that they could increase the amount of melanin naturally with M2, which helps protect skin and organs from ultra violet rays. As an added benefit, they found that it also increased libido in males.

Essentially in both males and females, Melanotan II is the breakthrough in science that has allowed daily dosing and minimal sun exposure to result in enhanced tan and long lasting natural colour from minimal sun exposure.

Melanotan II is considered a breakthrough in the peptide hormone world and due to it's overall benefits when used under a strict and controlled regime with even minimal dosing and minimal sun exposure can have exceptional benefits on enhanced tanning and pigmentation that gives subjects a shade that compliments the aesthetic look most desire.

A promising product with a bright future ahead, Melanotan II is fast being developed for the mainstream across the world and it's promoters are highly excited about this fact.

### Benefits of Melanotan 2

**Lasting Tan:** Even if the dosage is stopped, a warm sun-kissed tan can last for months at a time without any exposure to the sun. Conversely, tans developed naturally fade in around a months time.

**Flexibility of Use:** Able to take a small loading dose with continued dosing until desired skin pigmentation is achieved. Once achieved only need to dose once every couple of weeks to maintain the same pigment.

**Reduced exposure to sunlight (UV rays):** Melanotan still needs exposure to sunlight to be effective. However, it will allow the user a significant reduction in time to develop the desired tan.

**Side effects:** Side effects for Melanotan 2 include nausea, appetite loss, facial flushing .Side effects are generally mild and tend to diminish over time. Some research suggests nausea can be reduced by injecting MT-II after dinner or before bed. Athletes and bodybuilders have injected peptides like Melanotan 2 intermittently to prolong their tan since a tan aided by Melanotan can last 2-3 times as long as a normal tan. Like other peptides, Melanotan is a fragile molecule, therefore Melanotan nasal sprays, pre-mixed peptides, pills, oral and loose powder are not often legitimate for research effectiveness.

### Package and Shipping of Melanotan 2

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

### FAQ of Melanotan 2

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
