

99.9% Purity Skin Tanning Peptides 10mg / Vial Melanotan II Melanotan 2 Mt2

Our Product Introduction

for more products please visit us on peptide-powder.com

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan II
- Minimum Order Quantity: 5 box
- Price: US\$ 46-53 /box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: MoneyGram, Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Melanotan II
- CAS No.: 121062-08-6
- Purity: >99%
- Molecular Formula: C₅₀H₆₉N₁₅O₉
- Molecular Weight: 1024.2
- Appearance: White Lyophilized Powder
- Storage: 2-8°C
- Shelf Life: 2 Years
- Highlight: Skin Tanning Peptides Melanotan II,
10mg / Vial Melanotan II,
10mg / Vial Melanotan 2

Product Description

99.9% Purity Skin Tanning Peptides 10mg/Vial Melanotan II Melanotan 2 Mt2

Basic Information Form of Melanotan II

Name	Melanotan II
CAS NO.	121062-08-6
Purity	99%
MW	1024.2
MF	C50H69N15O9
Appearance	White powder
Storage	2-8°C

Product Description Of Melanotan II

Many in the bodybuilding community have already heard of Melanotan II (M2) and its amazing ability to promote darker skin pigmentation. What many bodybuilders don't realize is that Melanotan II also comes with other added benefits that would be of great interests to those on and off cycle. These can include weight loss, increased libido and lean body mass.

For a bodybuilder planning to compete on stage, there is a considerable amount of time and attention to detail committed before they are ready to compete. Being muscled up and defined is only accentuated by a nice tan to make lines and definitions pop out and become more evident to viewers and judges. Enter the heptapeptide Melanotan II, now bodybuilders can actually protect themselves from over exposure to the sun while boosting melanin. This results in a darker and more tanned complexion. When Melanotan II is added to a peptide protocol leading up to a show, it will boost melanin levels, resulting in tanner skin; in addition, it will increase fat loss and muscle hardness.

In addition, central application of the MC3/4-R agonist melanotan-II decreases body fat (increases lipolysis) beyond that accounted for by its ability to decrease food intake.

Dosages and Usage of Melanotan II

Like every peptide we have discussed thus far, please remember that peptides come in the form of a white delicate powder and should be stored out of light in a cool dry place. All peptides need to be reconstituted with bacteriostatic water or sodium chloride specifically used for injections. In order to use Melanotan II effectively, you need to understand your skin type. To keep things simple, we can go ahead and break skin types into three categories.

Skin Type 1: Very fair skin, never tans. Dosages: 50-60mgs or 5-6vials.

Skin Type 2: Fair skin, burns but sometimes tans. Dosages: 30-40mgs or 3-4 vials.

Skin Type 3: Medium skin, sometimes burns and always tans. Dosages: 20mgs or 2 vials.

Beyond that, if your pigmentation is already naturally olive or darker, you will need to use less Melanotan II for your tanning needs. The tan results coupled with exposure to sunlight and UV rays should last a user all summer or through a season.

Daily Dosages vary depending on your needs:

For Erectile Dysfunction (ED): average dose is around 0.025 mgs/kg (1kg = 2.2 lbs)

For Tanning (skin pigmentation): average dose is 0.025-0.030 mgs/kg (1kg = 2.2 lbs)

Side Effects

The side effects associated with Melanotan II are similar to other peptides: flushed face, headache, feeling dizzy, lethargy, nausea, white patches and possible soreness or redness at site of injection. The benefits users get from Melanotan II are: darker skin pigmentation, appetite suppression, fat loss, lean body mass, increased libido and frequency of erections.

There is a serious anecdotal note about Melanotan II, some users have experienced serious nausea after using M2. This is variable from user to user, but has to be a concern. You need to feel out your dosages and start slow before you go head long into using this peptide.

Package and Shipping of Melanotan II

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Melanotan II

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.
