

White Powder Melanotan-1 HGH Peptide 99% Purity MT-1 For Muscle Gain

Our Product Introduction

for more products please visit us on peptide-powder.com

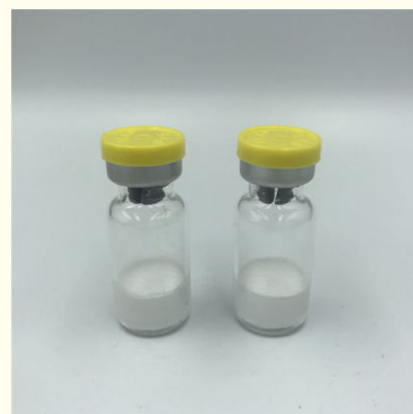

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Melanotan-1
- Minimum Order Quantity: 5 box
- Price: US\$ 55-65/box
- Packaging Details: 10mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Melanotan-1
- CAS No.: 75921-69-6
- Molecular Formula: C78H111N21O19
- Molecular Weight: 1646.35
- Appearance: White Lyophilized Powder
- Alias: Melanotan - 1 , Melanotan I , Afamelanotide , Melanotan , Melanotropin
- Purity: >99%
- Shelf Life: 2 Years
- Highlight: **Melanotan-1 HGH Peptide, 99% Purity MT-1, MT-1 For Muscle Gain**

Product Description

White Powder Melanotan-1 HGH Peptide 99% Purity MT-1 for Muscle Gain

Basic Information Form of Melanotan-1

Name	Melanotan-1
CAS NO.	75921-69-6
MF	C78H111N21O19
MW	1646.85
Fineness	99%
Appearance	White Lyophilized Powder
Store	Cool Dry Place
Alias	Melanotan - 1 , Melanotan I , Afamelanotide , Melanotan , Melanotropin

What Is Melanotan-1?

Research has suggested Melanotan 1 helps people to increase the production of skin darkening pigments. Melanotan 1 is used to help people who suffer from erythropoietic protoporphyria. Against sun-related skin damage. Studies have shown the product is known to influence the melanocytes.

Which are cells in skin and hair responsible for the pigmentation Melanotan is specially developed to be a sunless tanning agent? Besides causing pigmentation. Additionally, research shows that it can boost appetite, increase sexual arousal, and alter baseline metabolism. Meanwhile, Melanotan peptide 10mg vial for research Only helps users to up to 75% tan and 47% less to experience sunburn.

As a result, this means that Melanotan 1 is useful for boosting tanning. Even in high ultraviolet settings while protecting the skin against sunburn. As well as long-term effects of UV skin damage. Research has suggested Melanotan 1 is useful to achieve the desired tanning effect. Without risking their health and exposing themselves to the sun. Consequently, traditional tanning methods may lead to UV skin damage and other skin related damage.

Melanotan-1 Research

Melanotan 1 Research and Neuroinflammatory Disease

Research on melanotan 1 has revealed that the MC1 receptor is responsible for pigmentation in skin and hair. For a long time it was thought that this was the receptor's only function. Recent research in mice, however, has indicated that this receptor plays a role in mediating inflammation in the central nervous system. In multiple sclerosis, for instance, helper T cells cause loss of myelin on neurons, which in turn causes neuron dysfunction and even death. In mice, administration of melanotan 1 interferes with this process and prevents loss of myelin, thus preventing neuron damage. In fact, administration of MT-1 to these mice improved myelin recovery and helped to reestablish neuron signaling. Similar effects as above are also seen in mouse models of uveitis, an inflammatory disorder of the eye that can cause pain and vision loss. Current treatments have a range of side effects, so scientists are constantly searching for alternatives to steroids and immunosuppressive drugs. Alpha-MSH acts to suppress T-cell function, a property mediated through the MC4 receptor and thus mimicked by MT-1. Surprisingly, local administration of MC4 receptor agonists directly to the eye is as effective as systemic administration. This route of administration helps to eliminate systemic side effects.

Melanotan 1 Investigated in Fat Loss Trials

Melanotan 1 works on several melanocortin receptors, including the MC5 receptor. Stimulation of MC5R promotes the oxidation of fatty acids by muscle and shifts fat cells from fat storage to fat burning. These findings in mice also reveal that the fat burning caused by melanocortin stimulation is complex and involves several receptors and physiologic pathways. That said, melanotan 1 is useful to scientists wishing to explore how fatty acid metabolism can be altered and offers the tantalizing ability to boost baseline physiology without the need for exercise, which could be of tremendous benefit in individuals who are unable to exercise due to morbid obesity, disability, or injury.

Package and Shipping of Melanotan-1

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Melanotan-1

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
