

Glass Bottles 99% Purity Human Growth Hormone Peptide Oxytocin 2Mg

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Hongbaiyi
- Certification: COA, HPLC MR
- Model Number: HBY-Oxytocin
- Minimum Order Quantity: 5box
- Price: US \$ 35-43 / box
- Packaging Details: 2mg/vial, 10vials/box
- Delivery Time: 3-5 work days after your payment
- Payment Terms: , Western Union, T/T
- Supply Ability: 3000kg/Month

Product Specification

- Name: Oxytocin 2mg
- CAS No.: 50-56-6
- Molecular Formula: C43H66N12O12S2
- Molecular Weight: 1007.193
- Appearance: White Powder
- Synonyms: OXYTOCIN; Pitocin; Ocytocin; Syntocinon
- Purity: 99%
- Storage: Closed, Below 2 ~ 8 Preservation
- Highlight: **Oxytocin 2Mg 99% Purity,
Glass Bottles Oxytocin 2Mg,
Human Growth Hormone Peptide Oxytocin**

Product Description

Glass bottles 99% Purity Human Growth Hormone Peptide Oxytocin 2Mg

Basic Information Form of Oxytocin 2mg

Name	Oxytocin 2mg
CAS NO.	50-56-6
Synonyms	OXYTOCIN; Pitocin; Ocytocin; Syntocinon
Molecular Weight	1007.193
Molecular Formula	C ₄₃ H ₆₆ N ₁₂ O ₁₂ S ₂
Appearance	White Powder
Purity	99%
Stability	2 years

What is oxytocin 2mg?

Oxytocin is a hormone that acts on organs in the body (including the breast and uterus) and as a chemical messenger in the brain, controlling key aspects of the reproductive system, including childbirth and lactation, and aspects of human behaviour. Alternative names for oxytocin

Alpha-hypophamine; manufactured versions – syntocinon and pitocin (both synthetic oxytocin); carbetocin (an analogue of oxytocin with similar structure)

Oxytocin is produced in the hypothalamus and is secreted into the bloodstream by the posterior pituitary gland. Secretion depends on electrical activity of neurons in the hypothalamus – it is released into the blood when these cells are excited.

The two main actions of oxytocin in the body are contraction of the womb (uterus) during childbirth and lactation. Oxytocin stimulates the uterine muscles to contract and also increases production of prostaglandins, which increase the contractions further. Manufactured oxytocin is sometimes given to induce labour if it has not started naturally or it can be used to strengthen contractions to aid childbirth. In addition, manufactured oxytocin is often given to speed up delivery of the placenta and reduce the risk of heavy bleeding by contracting the uterus. During breastfeeding, oxytocin promotes the movement of milk through the ducts in the breast, allowing it to be excreted by the nipple. Oxytocin is also present in men, playing a role in sperm transport and production of testosterone by the testes.

In the brain, oxytocin acts as a chemical messenger and has an important role in many human behaviours including sexual arousal, recognition, trust, romantic attachment and mother–infant bonding. As a result, oxytocin has been called the 'love hormone' or 'cuddle chemical'. The effect of oxytocin on the brain is complex. Current research is focused on examining the role of oxytocin in various disorders including addiction, depression, post-traumatic stress, anxiety and anorexia.

Applications Of Oxytocin 2mg

The two main physical functions of oxytocin are to stimulate uterine contractions in labor and childbirth and to stimulate contractions of breast tissue to aid in lactation after childbirth.

Oxytocin also acts as a chemical messenger in your brain and has an important role in many human behaviors and social interactions, including:

- Sexual arousal.
- Recognition.
- Trust.
- Romantic attachment.
- Parent-infant bonding.

Package and Shipping of Oxytocin 2mg

Package: 2mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of Oxytocin 2mg

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment.

Q3: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q4: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer a better price for you.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
